

# Transport Access Program

## Edgecliff Station Upgrade

**COMMUNITY NOTIFICATION**

**MAY 2019**

The Transport Access Program is a Transport for NSW initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure. Last month we continued to make progress with the project, with the opening of the first set of new escalators.

## Project update

### Emergency fire stairs and Escalators 3 & 4

April saw the completion of the emergency fire stairs between the platform and the concourse, which has enabled the shutdown of the remaining two escalators at Edgecliff Station. The hoarding has been reconfigured to enable commencement of the next stage of replacement works which includes the removal of the escalator steps, handrails and cladding.

### Lift 1 (between the station platform and concourse)

Works on Lift 1 will now recommence. Demolition of existing concrete slabs will commence shortly behind the hoarding. The lift is scheduled to open mid-2019, making the platforms fully accessible.

For more information call 1800 684 490,

For urgent enquiries or complaints regarding construction activities, please call 24 hours 1800 775 465

## Bus canopy extension

Construction of the new bus canopy extension is scheduled to begin at the end of May. The canopy extension will improve the overall customer experience, providing more shade and increasing weather protection to those accessing the bus interchange. Construction work will involve fencing off the first bus bay to enable safe storage of equipment and materials. Further details regarding relocation of the bus bays is clarified below.

## New McLean Street ramp

Temporary fencing has now been installed around the pedestrian pathways and existing one-hour parking spaces near the New McLean Street ramp. Vegetation removal has occurred and foundations have been poured for the new ramp. Work on the replacement of the current ramp has been pushed back until 20 May 2019 due to a delay in material production. Businesses inside the station will remain operational. Works on the New McLean Street ramp will occur primarily during standard construction hours. The community will receive prior notification for any work conducted outside these hours.

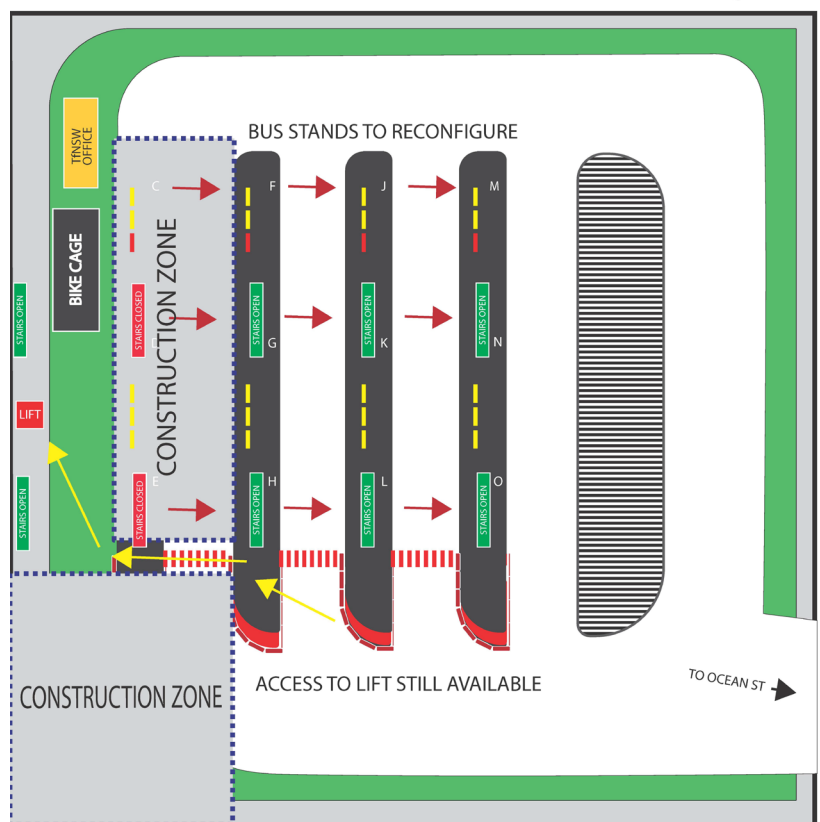

## Changes to pedestrian access

### Escalators 3 & 4

The concourse and platform hoardings have been reconfigured around the escalators and will remain until late July. Signage has been installed on the platform to direct customers towards escalators 1 and 2.

### BUS INTERCHANGE WORKS

### Bus Island Extension - Stage 1

### Bus Interchange

The western bus bay (Stands C, D and E) will be occupied by construction equipment and materials for a four-week period. There will be a lane change of bus stands as per the aside image. Bus marshals and signage will be provided to direct the public to the temporary location.

## New McLean Street Ramp

The New McLean Street ramp will be closed **from 20 May until 31 May 2019**. During this time, access will be available via alternate entry points, including through the car park or from New South Head Road. Signage and traffic control will be in place to assist pedestrians to safe pathways during construction.

*Image: New McLean Street pedestrian access diagram, during shutdown period when Edgecliff Station will not be accessible from the ramp.*

## Out of hours works

Night works will continue **between 8pm and 5am, Sunday through Thursday** throughout the month of May. This is an exciting time as the works are almost complete and we appreciate the community's cooperation. There is a lot of activity happening in a short period of time and the contractor is working hard to ensure that community impacts are minimal, but given the constraints some can't be avoided. Noise monitoring will be implemented to ensure predicted noise levels are adhered to and confirm that appropriate mitigation measures are in place. Specific notifications and monitoring will be issued prior to commencing out of hours works.

Date	Bus Interchange & New McLean Street		Station Platform & Concourse	
28 <sup>th</sup> of April to 4 <sup>th</sup> of May	2000 - 0500	Escalator removal through car park (including loading onto trucks in Aldi loading dock)	2000 - 0500	Removal of existing escalators
	There will be some additional vehicles and noise during this period. Every effort will be taken to minimise impact to the public		These works are not expected to be audible outside of the station building	
5 <sup>th</sup> to 11 <sup>th</sup> of May	2000 - 0500	Escalator removal through car park (including loading onto trucks in Aldi loading dock)	2000 - 0500	Removal of existing escalators
	There will be some additional vehicles during this period. Every effort will be taken to minimise impact to the public		These works are not expected to be audible outside of the station building	
12 <sup>th</sup> to 18 <sup>th</sup> of May	2000 - 0500	Escalator removal	2000 - 0500	Removal of existing escalators
	There will be some additional vehicles during this period. Every effort will be taken to minimise impact to the public		These works are not expected to be audible outside of the station building	
19 <sup>th</sup> to the 25 <sup>th</sup> of May	2000 - 0500	Escalator deliveries	2000 - 0500	Construction of new escalators
	There will be some additional vehicles during this period. Every effort will be taken to minimise impact to the public		These works are not expected to be audible outside of the station building	
26 <sup>th</sup> to the 31 <sup>st</sup> of May	2000 - 0500	Bus interchange canopy extension and escalator deliveries	2000 - 0500	Construction of new escalators
	There will be some additional vehicles during this period. Every effort will be taken to minimise impact to the public		These works are not expected to be audible outside of the station building	

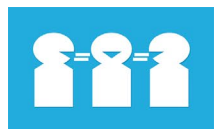

**\*\* Works subject to minor changes**

## Standard construction hours

Standard working hours are **7am to 6pm, Monday to Friday, and 8am to 1pm, Saturday**. Works during these hours will occur behind the hoardings or temporary fencing. In consultation with local businesses and residents, we will aim to complete all major noisy works during these hours, including most material movements. Suitable respite periods and noise reduction methods will be used where possible.

## Keeping the community informed

The community will be kept informed with regular project notifications and information via the project website found at: <https://www.transport.nsw.gov.au/projects/current-projects/edgecliff-station-upgrade>. For further information on the project, please call the Project Infoline on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au).
