

# Transport Access Program

## North Strathfield Station Upgrade

Community Notification

March 2019

### Project update

The North Strathfield Station Upgrade is progressing well, with activities such as service investigation and enabling works for lifts undertaken in February. In March, the following work will commence:

- excavation and installation of temporary support structures and concrete work for lift pits
- service installation
- installation of hoarding to allow construction of the Queen Street lift to the footbridge.

### Upcoming weekend and night work

**From 2am Saturday 9 March to 2am to Monday 11 March 2019**, weekend and night work will be undertaken in addition to construction in standard hours, during a scheduled Sydney Trains track-work weekend. Activities scheduled to be undertaken during this time include:

- excavation on platforms and installation of new stormwater, power and communication conduits
- installation of new cable conduits on exterior of the existing footbridge
- concrete pouring for lift pits and shafts.

Equipment to be used includes excavators, concrete and delivery trucks, a concrete pump, mobile lighting towers, a generator, cherry pickers and power and hand tools.

Some of these works may be noisy at times and we have scheduled noisier works for daytime hours to reduce the impacts where possible.

### Changes to pedestrian access

**Pedestrian access to the footbridge will be maintained during this time**, and traffic controllers will be available to assist pedestrians past the areas of work.

Please visit **[transportnsw.info](http://transportnsw.info)** or call **131 500** for up to date information regarding services and replacement buses during this time.

### Other works being undertaken in your area

**From Thursday 7 March to Tuesday 12 March 2019** other work including maintenance may also be happening along the rail line between Strathfield and Berowra as part of the scheduled Sydney Trains track-work shut down.

For more information about these works please visit **[transport.nsw.gov.au/sydtraincommunity](http://transport.nsw.gov.au/sydtraincommunity)**.

## Footpath closure

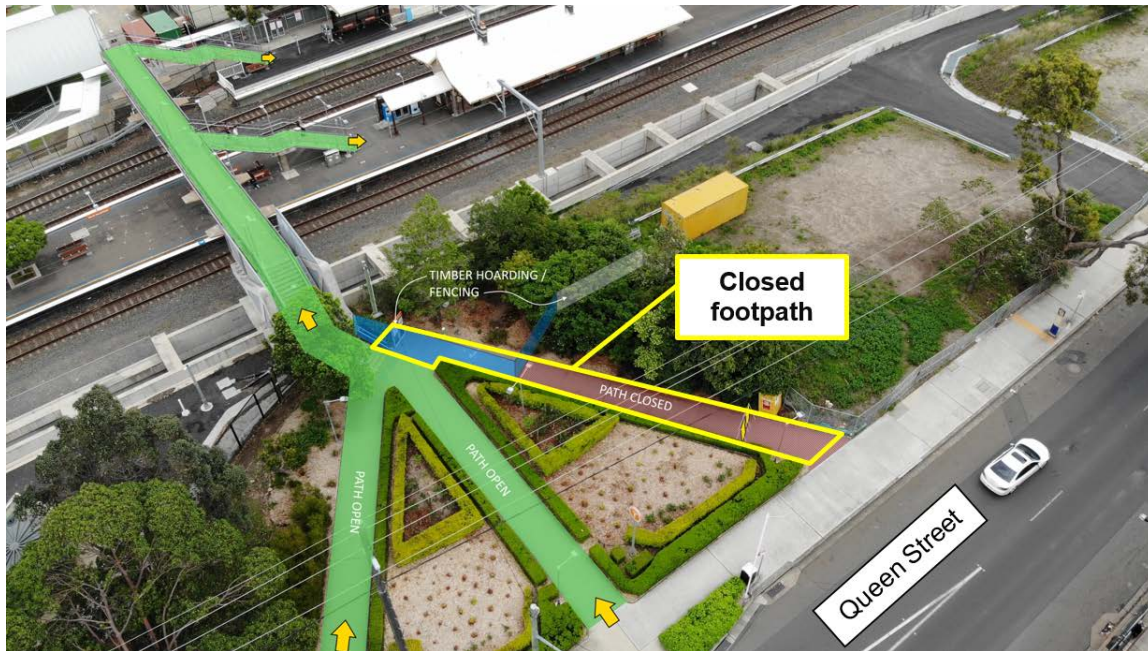

Image shows closed footpath

**For around 12 months**, the northern most of the three footpaths which connect the station to Queen Street will close to safely construct one of the new lifts. The two adjacent pathways will remain open, allowing regular access between Queen Street and the station.

## Standard working hours

Standard working hours are between **7am to 6pm, Monday to Friday and 8am to 1pm Saturdays**.

We thank you for your patience and apologise for any inconvenience while we undertake these important works.
