

Transport Access Program

Warrawee Station Upgrade

Project update

December 2019

The NSW Government is improving accessibility at Warrawee Station. This upgrade will be delivered as part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe and accessible infrastructure.

Early work commenced in November 2019 and construction is expected to be completed by the end of 2020. Transport for NSW has engaged Haslin Constructions to deliver this work on its behalf.

Project overview

The Warrawee Station Upgrade aims to provide a station precinct that is accessible to people with a disability, limited mobility, parents with prams and customers with luggage.

Key features of the upgrade include:

- a new lift between the platform and existing footbridge
- a canopy from the new lift to the station building on the platform
- new accessible parking spaces and a kiss and ride space on Heydon Avenue
- new kiss and ride spaces on Warrawee Avenue
- new accessible pathways through the station precinct
- a new family accessible toilet and unisex ambulant toilet
- a new bike shelter
- improvements to CCTV and lighting to increase safety and security.

Key activities

During December, work will commence to establish a temporary site compound complete with electrical and plumbing services. The compound will be established on the vacant land on the northern side of the station platform, adjacent to Warrawee Avenue. The compound will accommodate site offices, staff amenities, and a laydown and storage area for materials during construction.

Equipment to be used during this work includes small excavators, small crane trucks, elevated work platform, hand tools, and light and medium size vehicles.

Work will take place during standard construction hours from **7am to 6pm Mondays to Fridays and Saturdays 8am to 1pm**.

Due to delivery of machinery and equipment, there may be some temporary changes to parking and access at the station. Construction crew will be available on site to assist pedestrians with any changes.

Keep in touch

We will continue to keep the community informed with regular project updates. Further information is available on the project website www.transport.nsw.gov.au/warrawee. If you would like to be added to the project distribution list, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on 1800 775 465.
