

# Transport Access Program

## Pymble Station Upgrade

### UPDATE COMMUNITY NOTIFICATION NOVEMBER 2021

The Pymble Station Upgrade is part of the Transport Access Program, a NSW Government initiative to provide a station that is accessible to people with a disability, limited mobility, parents/ carers with prams and customers with luggage.

### Changes to upcoming weekend work

We recently notified you of upcoming weekend work as part of the Pymble Station Upgrade.

From **12am Saturday 6 November to 11pm Sunday 7 November**, we will be working around the clock in and around the station during a Sydney Trains trackwork weekend, when the station is closed, and trains are not running. This work may be noisy at times and we apologise for any inconvenience this may cause.

We want to update you about **two changes to this work**.

#### Sheet piling

We will be carrying sheet piling adjacent to Grandview Street to allow for the future lifts to be installed.

Sheet piling work is noisy work and will be carried out within standard construction hours between **8am and 1pm on Saturday 6 November**.

#### Pacific Highway Car Park remains open

Previously, we advised the car park would be closed to facilitate the removal of the Wallangarra White Gum tree. This tree will now be removed in December. We will notify you about this work in our notification in December 2021.

You may notice during the weekend work and throughout November of additional trucks within the Pacific Highway car park. This is to allow for materials and plant to be delivered to site. Traffic control will be in place to provide directions to motorists and pedestrians around the work vehicles.

#### How will this work affect you?

To reduce the potential for dust, shade cloth mesh will be added to temporary fencing. We will employ noise reduction measures such as, turning equipment off when not in use and placing equipment as further away as possible from properties.

#### Contact

Details on the rest of the work during this weekend can be found on the project webpage [www.transport.nsw.gov.au/pymble](http://www.transport.nsw.gov.au/pymble). If you have any questions about this work, please do not hesitate to contact us on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au).
