

# Commuter Car Park Program

Lindfield Village Green

Project update

February 2022

**Thank you for your continued support and cooperation during the construction of the Lindfield Village Green Commuter Car Park.**

The Lindfield Village Green Commuter Car Park located on Tryon Road is now complete and open to the public from Monday 14 February. The Village Green has created a new green space for the centre of Lindfield, capable of hosting markets and outdoor events.

Underneath the green space are three levels of underground parking, including up to 100 commuter parking spaces and 136 for the general public. Vehicles will access the Village Green parking via Milray Street, with lifts providing pedestrian access to the car park.

The Green Village was delivered by Ku-ring-gai Council, in partnership with Transport for NSW who provided funding to build the Commuter Car Park.

The Transport Park&Ride boom gates are soon to be installed. However, commuters will still be able to access the new car park whilst the Park&Ride infrastructure is being installed.
