

More Trains, More Services

Kiama Station

Transport for NSW | December 2022 – January 2023

More Trains, More Services

As part of the More Trains, More Services program we are delivering platform extension and asset upgrades to a number of stations along the T4 Illawarra Line. This work will simplify and modernise the rail network, ultimately supporting the introduction of the Mariyung fleet.

Upcoming weekend work

In December, we will be completing signalling work within the rail corridor at Kiama. From **7am until 6pm on Saturday 3 December 2022**, the project team will be using electric hand tools to complete these activities and noise is expected to be non-intrusive.

Construction hours

Standard construction hours on this project are **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**.

Happy holidays

We would like to thank you, our closest neighbours, for your patience whilst we complete construction activities at Kiama as part of the More Trains, More Services program.

Our site will be closed from **Thursday 22 December until Monday 9 January 2023**.

We want to take this opportunity to wish you and your loved ones a safe and happy holiday season. See you next year!

We're going digital!

We are committed to integrating sustainable practices into our projects and reducing environmental impacts. By 2023, we plan to phase out hard copy notifications to residents, unless requested. Instead, we will be digitally distributing construction updates to project-specific email lists.

To help us reduce paper waste, please visit **yoursay.transport.nsw.gov.au/mtms-kiama** and let us know if you would prefer to receive our updates in your inbox instead of your mailbox.

We will continue to remind you of this transition and plan to go entirely digital from January 2023.

If our work is anticipated to directly impact your property and we don't have your contact details, we will still distribute a paper notification to your address to ensure you are aware of upcoming activities.
