

Notice of works

Lyons Road – citybound bus priority improvements

The NSW Government's Bus Priority Infrastructure Program is improving the reliability and efficiency of bus services for our public transport customers.

November 2023

Transport for NSW acknowledges the Wangal people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW (Transport) is taking key steps to improve bus services along the Victoria Road corridor for trips towards the city. From Thursday 23 November, work will start to improve bus priority on Lyons Road citybound through Drummoyne. Bus priority measures are consistent with the future vision for the Victoria Road corridor.

What are we doing?

Transport will be installing a citybound bus lane on Lyons Road between Bayswater Street and Marlborough Street in Drummoyne to improve bus priority and journey times for public transport users accessing Victoria Road in peak periods.

The new bus lane will be operational 6am to 10am and 3pm to 7pm Monday to Friday. The introduction of a dedicated bus lane in this section of Lyons Road will improve bus service and reliability in peak periods.

Transport will also be introducing a new left turn only (buses excepted) lane into Bayswater Street from Lyons Road to accommodate traffic turning west onto Victoria Road and to improve traffic flow in the area.

Work includes:

- Installing a painted kerbside bus lane on Lyons Road between Bayswater Street and Marlborough Street
- New bus lane signage
- Installing a painted left turn only (buses excepted) lane on Lyons Road into Bayswater Street
- New left turn only (buses excepted) signage.

Why are bus lanes so important?

The NSW Government has a long-term vision to revitalise Victoria Road. In the interim, prioritising public transport within the existing road space is the vital first step towards encouraging people onto public transport and easing congestion on our roads.

When will we be working?

- Work will be carried out between Thursday 23 November 2023 and Wednesday 31 January 2024.
- We will be on site for up to 10 shifts. There will be a maximum of four night shifts (weather dependent).
- Night shift hours will be between 9pm to 5am, Sunday to Friday. No work will be performed on Saturdays or public holidays.

What will this mean for you?

Our work may be noisy at times, and we appreciate this can be inconvenient. We will do everything we can to minimise the impact, including completing noisier tasks by midnight.

You may also notice:

- Workers and vehicles on site
- Traffic controllers and signage in place
- Single lane closures and work zone speed of 40 km/h imposed on adjacent traffic
- Footpath closures

Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Temporary traffic changes

There will be temporary traffic changes while workers are on site. Single lane closures and a work zone speed of 40 km/h will be imposed on adjacent traffic to ensure safety. Traffic control measures will be always in place. Please keep to speed limits and follow signs and traffic controllers' directions.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
