

Wolli Creek Power Supply Upgrade

More Trains, More Services

July 2023

Transport for NSW acknowledges the Gweagal, Bidjigal and Gadigal Clans as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is building a new substation within the rail corridor to create the necessary power supply to support the increase in the number of trains travelling along the T8 Airport Line in the future.

What work are we doing?

In July 2023 we will undertake the following activities:

- underground investigation and cable testing work on Lusty Street. As part of this work, there will be **changes to driveway access at 99 Bonar Street** as outlined overleaf
- continuing to fit out the substation and installing a new fence around the substation boundary and near Sparks Lane
- installing cables, metal fixings and other electrical infrastructure inside the rail corridor. A winch truck will be stationed at the site access point near Guess Avenue
- testing cables on power poles in various locations. An elevated work platform (EWP) will be used and may have associated traffic changes.

When and where we'll be working

Standard construction hours are between **7am and 6pm Monday to Friday** and **8am and 1pm on Saturdays**.

Due to safety reasons, some work will take place outside of standard construction hours **from 10pm Friday 30 June through to 6am Monday 3 July 2023** when no trains will be running.

We are going paperless

We are committed to reducing our paper usage and environmental impacts.

Soon we will no longer be distributing paper notifications to residents (unless requested). Instead, we will contact you via email when there is construction work that may impact you.

If you haven't already, please scan the QR code and fill out the form to register for email updates.

If you do not register for updates, you may miss out on important updates and information about potential inconveniences caused by our construction work.

If you wish to continue to receive paper notifications, you can request this via the QR code or call us at **1800 684 490**.

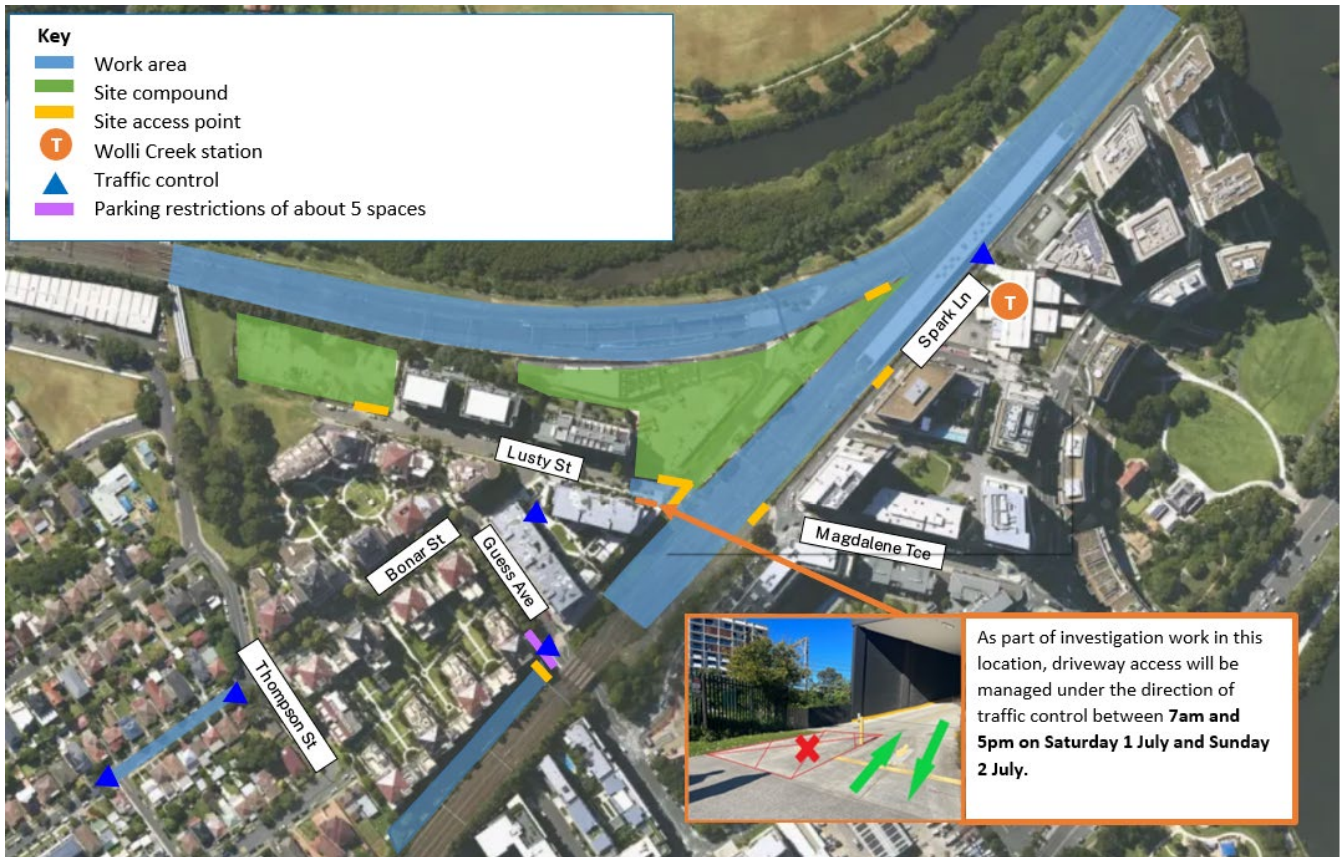

What will this mean for you?

You may notice:

- **temporary changes to driveway access at 99 Bonar Street on Saturday 1 July and Sunday 2 July 2023**
- **temporary parking restrictions on Guess Avenue (up to five spaces) from 10pm Friday 30 June through to 6am Monday 3 July 2023**
- workers and heavy vehicles
- lighting from temporary lighting towers
- noise from machinery and equipment.

Location of work

Changes to driveway access at 99 Bonar Street

Between 7am and 5pm on Saturday 1 July and Sunday 2 July 2023, a vacuum truck will be used on Lusty Street next to the driveway and entrance to the 99 Bonar Street carpark. This location is also referred to as 4 Lusty Street.

To safely undertake the work, **one lane of the driveway for the 99 Bonar Street carpark will be closed** as shown on the map. However, **access will be maintained at all times** and traffic controllers will be in place to assist residents in accessing the driveway throughout the work.

Managing our impacts

We understand construction activities may cause disruption for the community. We'll seek to minimise impacts as much as possible and adhere to strict environmental conditions relating to noise, vibration and dust management.

There's a lot happening

There are multiple contractors currently working within the Willi Creek rail corridor. For more information on work being completed by Sydney Trains, please phone 1300 656 999 or visit www.transport.nsw.gov.au/sydneytraincommunity
