

More Trains, More Services

T8 Line Power Supply Upgrade Project

What are we doing?

We are upgrading the power supply to support the introduction of the new fleet of trains operating along the T8 Airport Line. It will also future-proof the connection to the Sydney Trains network, allowing more trains and services to be available to customers.

Upgrades to the power supply are occurring along the T8 Airport Line tunnel from Central to Wolli Creek Junction.

What's been happening?

Recently the Project Team carried out utility service investigations and installations from the Chalmers Street tunnel portal to the Mortuary tunnel.

What's planned next?

During November, we will carry out the following activities:

- deliveries of oversized rail infrastructure
- cable and utility installations.

Are there activities planned outside of standard construction hours?

To minimise disruption to customers, and to improve the safety of workers and the community, oversized delivery and pick up of rail infrastructure will take place via the Gibbons Street access point on the following evenings **from 9pm to 5am**:

- **Monday 15 November through to Thursday 25 November**

Some construction work will also be completed outside of standard construction hours inside the T8 Airport Line tunnel:

- **between 9pm and 5am, Monday 15 November through to Friday 19 November**
- **between 3am, Saturday 20 November through to 12am, Monday 22 November.**

Where will work take place?

The map overleaf shows work will take place inside the T8 Line tunnel and the Gibbons and Chalmers streets site access points.

How do we consider the community?

The project team understands construction activities may cause disruption for the community and we thank you for your patience as we carry out this work. We will adhere to strict environmental conditions relating to noise, vibration and dust management.

Community Engagement Survey

The project team would like your feedback on the way we keep you informed about construction activities relating to the projects we are delivering. This survey will take no more than five minutes to complete and will be used to inform and improve the way we communicate with our stakeholders and the community.

As part of our survey and in appreciation of your time the project team will be donating \$5 to a charity of your choice for each individual survey completed. The survey can be accessed via the QR code below:

There's a lot of work happening

Currently there are multiple project teams, transport agencies and contractors working within the T8 Airport Line tunnel.
