

Wahroonga Station Upgrade

Finishing work - March 2023

Transport for NSW completed the Wahroonga Station Upgrade in May 2022 as part of the Transport Access Program, to provide a station that is accessible to people with a disability, limited mobility, parents / carers with prams, and customers with luggage.

We advised you at that time that some finishing works would be required.

Upcoming night work

Finishing works are planned on the Redleaf Avenue Bridge during late February/early March. To carry out this work safely and with minimal disruption to traffic, we will be working at night.

This work will include painting the concrete barriers to match with the design and the heritage specifications. There will be some angle grinding associated with this work.

This work is planned to take place **over two-night shifts**. From **7pm to 5am, on Wednesday 1 March and Thursday 2 March**. Our work will be completed by **5am on Friday 3 March**. Night shift work reduces impacts to motorists and pedestrians and provides safety for our workers.

Changes to scheduled work

Work schedules are subject to change due to permits, weather, and site conditions. Further notification will be provided should there be changes to the program.

How this work may impact you

During this work, a single lane will be temporarily closed to allow work to be carried out. Traffic controllers will be in place to assist motorists. Please see below map for work area.

We will be using power tools such as an angle grinder for these works.

Our work will be noisy at times. Where possible measures will be implemented to reduce noise including turning off equipment when not in use, placing equipment as far away as possible, from properties, use of noise blanket and using non-tonal reversing beepers.

We will be in contact with directly impacted residents.

Thank you for your patience as we complete this work.
