Wahroonga Station Upgrade – finishing work

August 2023

Transport for NSW acknowledges the Darug people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW completed the Wahroonga Station Upgrade in May 2022 as part of the Transport Access Program, to make it easier for everyone to access, including people with a disability or limited mobility, parents/carers with prams, and customers with luggage. Some minor finishing work is still required.

These works are scheduled to take place during a scheduled Sydney Trains maintenance period when trains are not running to minimise impacts on passengers.

What work are we doing?

Weekend work will be carried out to continue repairs along the edge of the Wahroonga Station platform.

Equipment to be used

Equipment to be used includes hand tools including grinders, vacuums and support vehicles.

When and where we'll be working

This work will happen over two days from **7am to 5pm, Saturday 26 August and 8am to 5pm, Sunday 27 August 2023**. For the safety of workers, and to minimise inconvenience to commuters, this work must be performed when trains are not running.

What will this mean for you?

You may notice some construction vehicles working within and near the rail corridor areas.

It is anticipated that noise levels from this work will be minimal and will not impact nearby residents. There will be no impacts on traffic and pedestrian access.

Buses will replace trains during this rail possession period.

We apologise in advance for any inconvenience this work may cause.

Managing our impacts

Transport for NSW is committed to minimising the impact on the community.

We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.
