

More Trains, More Services

Wolli Creek Power Supply Upgrade Project

Transport for NSW | August 2022

What are we doing?

Transport for NSW is building a new substation within the rail corridor to create the necessary power supply to support the increase in the number of trains travelling along the T8 Airport Line in the future.

What's been happening?

In July we continued to build the new substation and installed new electrical cables inside the rail corridor. Due to external factors outside our control, a portion of the planned out of hours work was postponed. We apologise for any inconvenience and will let you know once the work has been rescheduled.

What's planned next?

In August we will carry out the following activities:

- Continue to build and fit-out the new substation and install new fencing along the rail corridor
- Installation of new cables, overhead wiring, metal fixings and signalling infrastructure inside the rail corridor.

To facilitate the delivery of plant and equipment into the rail corridor for upcoming work, there will be the **temporary removal of approximately ten parking spots on Henderson Street, Turrella from 6pm Wednesday 24 August to 9am Tuesday 30 August (see map overleaf)**. Signage will be in place to notify road users and commuters.

Please note, there are multiple contractors working in the rail corridor between Wolli Creek and Turrella during this time who will also be temporarily removing some on-street parking. This will be notified separately by these contractors.

When will work take place?

Standard construction hours are **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**.

Some work will take place outside of these hours **between 10pm Friday 26 August and 2am Monday 29 August**.

This work will take place during a scheduled Sydney Trains trackwork period when no trains will be running. Scheduling construction work outside of standard construction hours enables our project team to complete the activities safely.

Changes to planned work

There is a possibility that some of our planned work may be postponed. To register for digital project updates, including changes to planned work, please email projects@transport.nsw.gov.au with 'Progress updates – MTMS Wolli Creek' as the subject line and include your name and address.

Cable installation truck used during work on Saturday 16 July and Sunday 17 July

Where will work take place?

The above map shows the locations of work and site access points.

The project team will utilise the site compounds for deliveries, storage of materials and equipment, offices, pre-start work meetings.

How do we consider the community?

The project team understands construction activities may cause disruption for the community. We will seek to minimise impacts as much as possible and adhere to strict environmental conditions relating to noise, vibration and dust management.

There's a lot happening

As mentioned earlier, currently there are multiple contractors working within the Wolli Creek rail corridor. For more information on work being completed by Sydney Trains, please phone **1300 656 999** or visit
