## Petersham Station footbridge works

From Saturday 3 February to Sunday 4 February 2024

### What we're doing

Sydney Trains is undertaking work at Petersham Station from Saturday 3 February to Sunday 4 February. Work activities include abrasive blasting, vacuum cleaning, and repainting of a section of the footbridge. Sydney Trains would prefer to complete the blasting and painting during business hours to minimise any inconvenience to you. However, work can only be completed safely during the weekend window when trains do not run.

**Note that abrasive blasting is noisy: Sydney Trains will scaffold and contain the blast area during the day on Saturday; abrasive sand blasting paint removal of the existing paint will occur at night and a 2-coat industrial paint system will be completed on Sunday in warmer, drier air. This will prevent any further corrosion on the steelwork. The sand blasting paint removal portion of work is planned between midday Saturday and 6am Sunday. However, we will try our best to accelerate the program to minimise noise disruption work at night.**

We understand this work may have an impact on you and appreciate your patience and understanding.

### How this affects you

#### Noise

- These works will create additional noise at night and over the weekend.
- **Work will take place from 5 am Saturday 3 February to 10pm Sunday 4 February.**
- **Materials and equipment will be delivered via work trains and flatbed trucks based on Terminus Street, which will be idling for extended periods.**
- Equipment may be delivered to the worksite outside the above times. Some deliveries may occur at night due to day time travel restrictions on large vehicles.
- Finishing works may take place following this period, including the removal of equipment.

#### Footbridge Closure

- **The footbridge at Petersham station will be partially closed between 2am Saturday 3 February to 10pm Sunday 4 February. Access to the station platform will remain via Trafalgar Street.**
- Pedestrians will be able to cross the rail corridor via the Petersham Station subway.

#### Traffic and Parking

- We will park our vehicles inside the rail corridor where possible, please be aware that on-street parking may be limited near worksites. Traffic controllers will be on duty throughout the works to assist motorists and pedestrians.
- Parts of Terminus Street will be blocked off for loading and unloading of materials throughout the weekend.

**We apologise for any inconvenience during these essential works.**
