

Pymble Station Upgrade

Transport Access Program

Community update - May 2023

Transport for NSW acknowledges the Cammeraygal people of the Guringai Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The Pymble Station Upgrade is part of the Transport Access Program to provide a station that is accessible to people with a disability, limited mobility, parents/carers with prams, and customers with luggage.

We have planned our weekend work to coincide with Sydney Trains trackwork. The station will be closed as trains will not be running.

For more information on replacement buses please visit transportnsw.info or call 131 500.

What work are we doing?

During May we will be continuing work on:

- installing new wayfinding signage
- finalising civil works around electrical assets for the transmission and delivery of electricity for the upgrade.

During May we will also start removing fencing, undertake site clean-up and demobilisation works.

How this may impact you?

We will be using a range of equipment throughout which includes excavators, jackhammers, compactors, trucks, grinders and various hand and power tools.

Our work will be noisy at times. Where possible measures will be implemented to reduce noise including turning off equipment when not in use, placing equipment as far away as possible from properties and using non-tonal reversing beepers.

When will we be working?

Our standard scheduled work hours are **Monday to Friday from 7am until 6pm**, and **on Saturday from 8am until 1pm**.

Weekend work

For the safety of customers, work will take place **on Saturday 6 May from 6am until 6pm**. We will be carrying out work to complete the footbridge screens.

Managing our impacts

We aim to manage our work to avoid impacts to the community and the environment.

This includes:

- the use of noise blankets where possible replacing reversing beepers with clickers
- traffic control and signage will be in place
- reducing our noise as much as possible
- directional lighting pointed away from residential properties wherever possible.

We thank you for your patience during this important work.

Changes to scheduled works

Work schedules are subject to change due to permits, weather, and site conditions. Further notification will be provided should there be a significant change to the construction program.
