

## Petersham Station footbridge works

From Saturday 20 April to Sunday 21 April 2024

### What we're doing

Sydney Trains is undertaking maintenance work at Petersham Station from Saturday 20 April to Sunday 21 April to protect the footbridge steelwork from corrosion and extend the life of the structure.

We will be repainting a section of the footbridge which involves abrasive cleaning and painting work.

**Note that abrasive cleaning using high pressure air is noisy and may need to occur at night. Ideally, Sydney Trains would prefer to complete the cleaning and painting during daytime hours to minimise the inconvenience to you. However, as we only have a weekend window when trains do not run to complete the works, Sydney Trains will require to scaffold and contain the area on Saturday day, abrasive clean the existing paint off and complete a 2-coat industrial paint system on Saturday night. This will prevent any further corrosion on the steelwork. We will try our best to accelerate the program to minimise the noise work at night.**

We understand this work may have an impact on you and we appreciate your patience and understanding.

### How this affects you

#### Noise

- These works will create additional noise at night and over the weekend.
- **Work will take place from 12am Saturday 20 April to 10pm Sunday 21 March.**
- **Work activities will include abrasive cleaning, vacuum cleaning, and compressors.** We will select low-noise compressors and equipment, where low-noise alternatives are available.
- Equipment may be delivered to the worksite outside the above times. Some deliveries may occur at night due to daytime travel restrictions on large vehicles. Finishing works may take place following this period, including the removal of equipment.
- To reduce the noise level, noise blankets and other noise reduction aids will be implemented during the work.

#### Footbridge Closure

- **The footbridge at Petersham station will be partially closed from 12am Saturday 20 April to 10pm Sunday 21 April.**
- Pedestrians will be able to access the station platform via Trafalgar Street.
- Pedestrians will be able to cross the rail corridor via the Petersham Station subway.

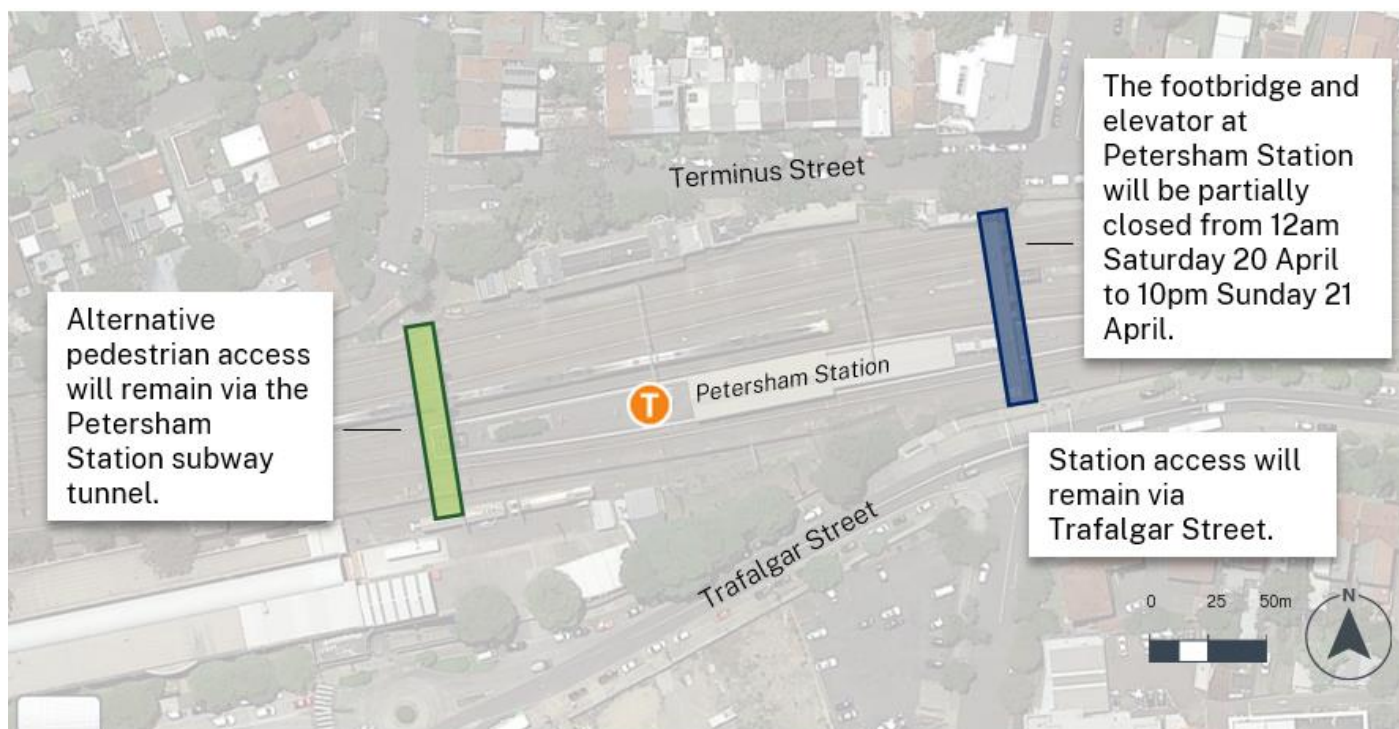

#### Traffic and Parking

- We will park our vehicles inside the rail corridor where possible, please be aware that on-street parking may be limited near worksites. Traffic controllers will be on duty throughout the works to assist motorists and pedestrians.
- Parts of Terminus St will be blocked off for loading and unloading of materials throughout the weekend.

**We apologise for any inconvenience during these essential works.**
