The NSW Government will implement a new timetable on 20 October 2013. It's a major rewrite of the timetable and has been designed to improve the customer experience.

The new timetable will deliver more services, improve connections between different modes of public transport and reduce many journey times.

The timetable will also be easier for customers to use, with fewer stopping patterns and more consistent service times, particularly in peak periods.

Customers who travel longer distances from regional areas will notice fewer stops and reduced journey times in many instances.

Customers closer to the CBD will receive frequent, more evenly spaced services, with many stations receiving 'turn up and go' services.

- More express services, with journey time savings by reducing suburban stops and aligning services to customer demand.
- A more consistent Bathurst express, departing Central at the same time seven days a week.
