Transport Access Program

Croydon Station Upgrade

MAY/ JUNE 2017 COMMUNITY NOTIFICATION

The Transport Access Program is a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern and integrated transport infrastructure.

The Croydon Station Upgrade includes new lifts, a new pedestrian footbridge, improved shelter, new bicycle racks and upgrades to lighting and CCTV surveillance.

Upcoming construction activities

Over the coming months, you may notice the following activities:

Concrete works for new stairs

Installation of roofing and building works for the new concourse and station operations building

Installation of window frames and ventilation louvres

Utilities and services installation

Streetscape work

Upcoming night works

To minimise disruption to passengers and ensure the safety of workers, certain activities including installation of roofing which overhangs the rail corridor, need to be undertaken at night when power to the rail line can be isolated.

These activities will be carried out over **three nights** between **Monday 19 June and Friday 30 June 2017** from **12 midnight to 5am**. Additional notification will be provided to nearby residents 24 hours prior to these activities. These activities are not expected to generate excessive noise.

What equipment will be used?

The following equipment may be used during the construction period:

- Elevated work platforms
- Hammer drill
- Crane and truck
- Excavators
- Concrete truck and pump
- Concrete vibrator
- Portable generators
- Power and hand tools
- Construction vehicles
- Vacuum truck

Standard construction hours

Other work will continue during standard construction hours, Monday to Friday 7am to 6pm and Saturday 8am to 1pm. The community will be informed of any works occurring outside of these hours prior to those works commencing.

Every effort will be made to minimise the noise impacts to customers, nearby residents and businesses. You may notice workers within the rail corridor, on the station platforms and within the work compounds on Paisley Road and Hennessy Street. Where required, signage will be installed and traffic controllers will be on site to facilitate safe pedestrian and vehicle movements.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW **(02) 9200 0200**. The interpreter will then assist you with translation.
