A look at the line

The NSW Government will implement a new timetable on 20 October 2013. It's a major rewrite of the timetable and has been designed to improve the customer experience.

The new timetable will deliver more services, improve connections between different modes of public transport and reduce many journey times.

The timetable will also be easier for customers to use, with fewer stopping patterns and more consistent service times.

Customers who travel longer distances from outer suburban areas will notice fewer stops and reduced journey times in many instances.

Customers closer to the CBD will receive frequent, more evenly spaced services, with many stations receiving 'turn up and go' services.

Special events

During major events, such as sports games and concerts, extra trains operate to Olympic Park Station and some may run direct from Central. Special events buses also operate, providing direct services to and from Sydney Olympic Park.

The timetable is available to be viewed at www.newtimetables.com.au or customers can download the new train timetable planning app, New Times, to get an early look at the changes. Available now from the App Store and Google Play.
