

# Sydney Airport stations

## train timetable – a look at your station

### The train timetable will provide customers using Sydney Airport station with:

- Extra services will provide a minimum frequency of eight trains an hour between Sydney Airport and City Circle stations between 7am and 9pm weekdays.
- Total number of weekly services will increase by 145.
- Kingsgrove to Revesby track quadruplication improves reliability for customers travelling to and from the airport by allowing services to operate on separate tracks.
- More frequent services will reduce waiting times. For example, from 7am-9pm, customers travelling to the city from Sydney Domestic Airport will have a maximum wait time of nine minutes (under the current timetable maximum wait time is 15 minutes).

The timetable is available to be viewed at [www.newtimetables.com.au](http://www.newtimetables.com.au) or customers can download the new train timetable planning app, New Times, to get an early look at the changes. Available now from the App Store and Google Play.
