

Night work during April on the Princes Motorway for the Albion Park Rail bypass

As part of work progressing on the Albion Park Rail bypass, directional signage will be installed on the Princes Motorway near Dapto.

What are we doing?

We will be carrying out essential night work for installation of road signage and supporting structures.

We will be working for up to **three nights** between **Thursday 29 April** and **Thursday 6 May** between **7pm and 7am**, weather permitting.

There may be some noise and lighting associated with this work. We will make every effort to minimise disruption by using noise shields and by turning off machinery and vehicles when not in use and, where possible, we will schedule noisier activities earlier in the night and position lighting towers away from properties.

Maps showing the location of these works are detailed on the next page.

Traffic changes

Traffic control will be in place for the safety of workers and road users, including temporary road and lane closures, intermittent stop/slow traffic conditions, and a reduced speed of 40km/h during work.

Please call 132 701, visit [livetraffic.com](https://www.livetraffic.com), or download the Live Traffic App for the latest traffic information.
