

## Albion Park Rail bypass – out of hours work in October

As we continue working towards project completion, we will be working outside our standard construction hours during October. Out of hours work will occur from **Tuesday 5 October** until **Sunday 31 October 2021 between 7pm and 7am**.

Please see the map and table included for details.

### Work outside standard construction hours

There are several reasons why work is required outside standard construction hours including:

- **Safety** – work outside standard construction hours helps us improve safety by reducing interactions between motorists, pedestrians and workers
- **Traffic** – to safely carry out activities traffic may be stopped, detoured or reduced to one lane. By working at night, delays are minimised and journey times for motorists and businesses are less affected
- **Utilities** – work may be required at night to minimise impacts on utility services and networks
- **Weather** – even when it's not raining, temperature and wind can impact activities including placing concrete and laying asphalt
- **Quality** – the quality of concrete and asphalt can be impacted if activities are not continuous
- **Environment** – after rain, sediment basins that are used to catch water from the construction site require maintenance and draining.

### How will the work impact me?

At times we will use machinery and equipment that generate light, noise and vibration. We will make every effort to minimise disruption by:

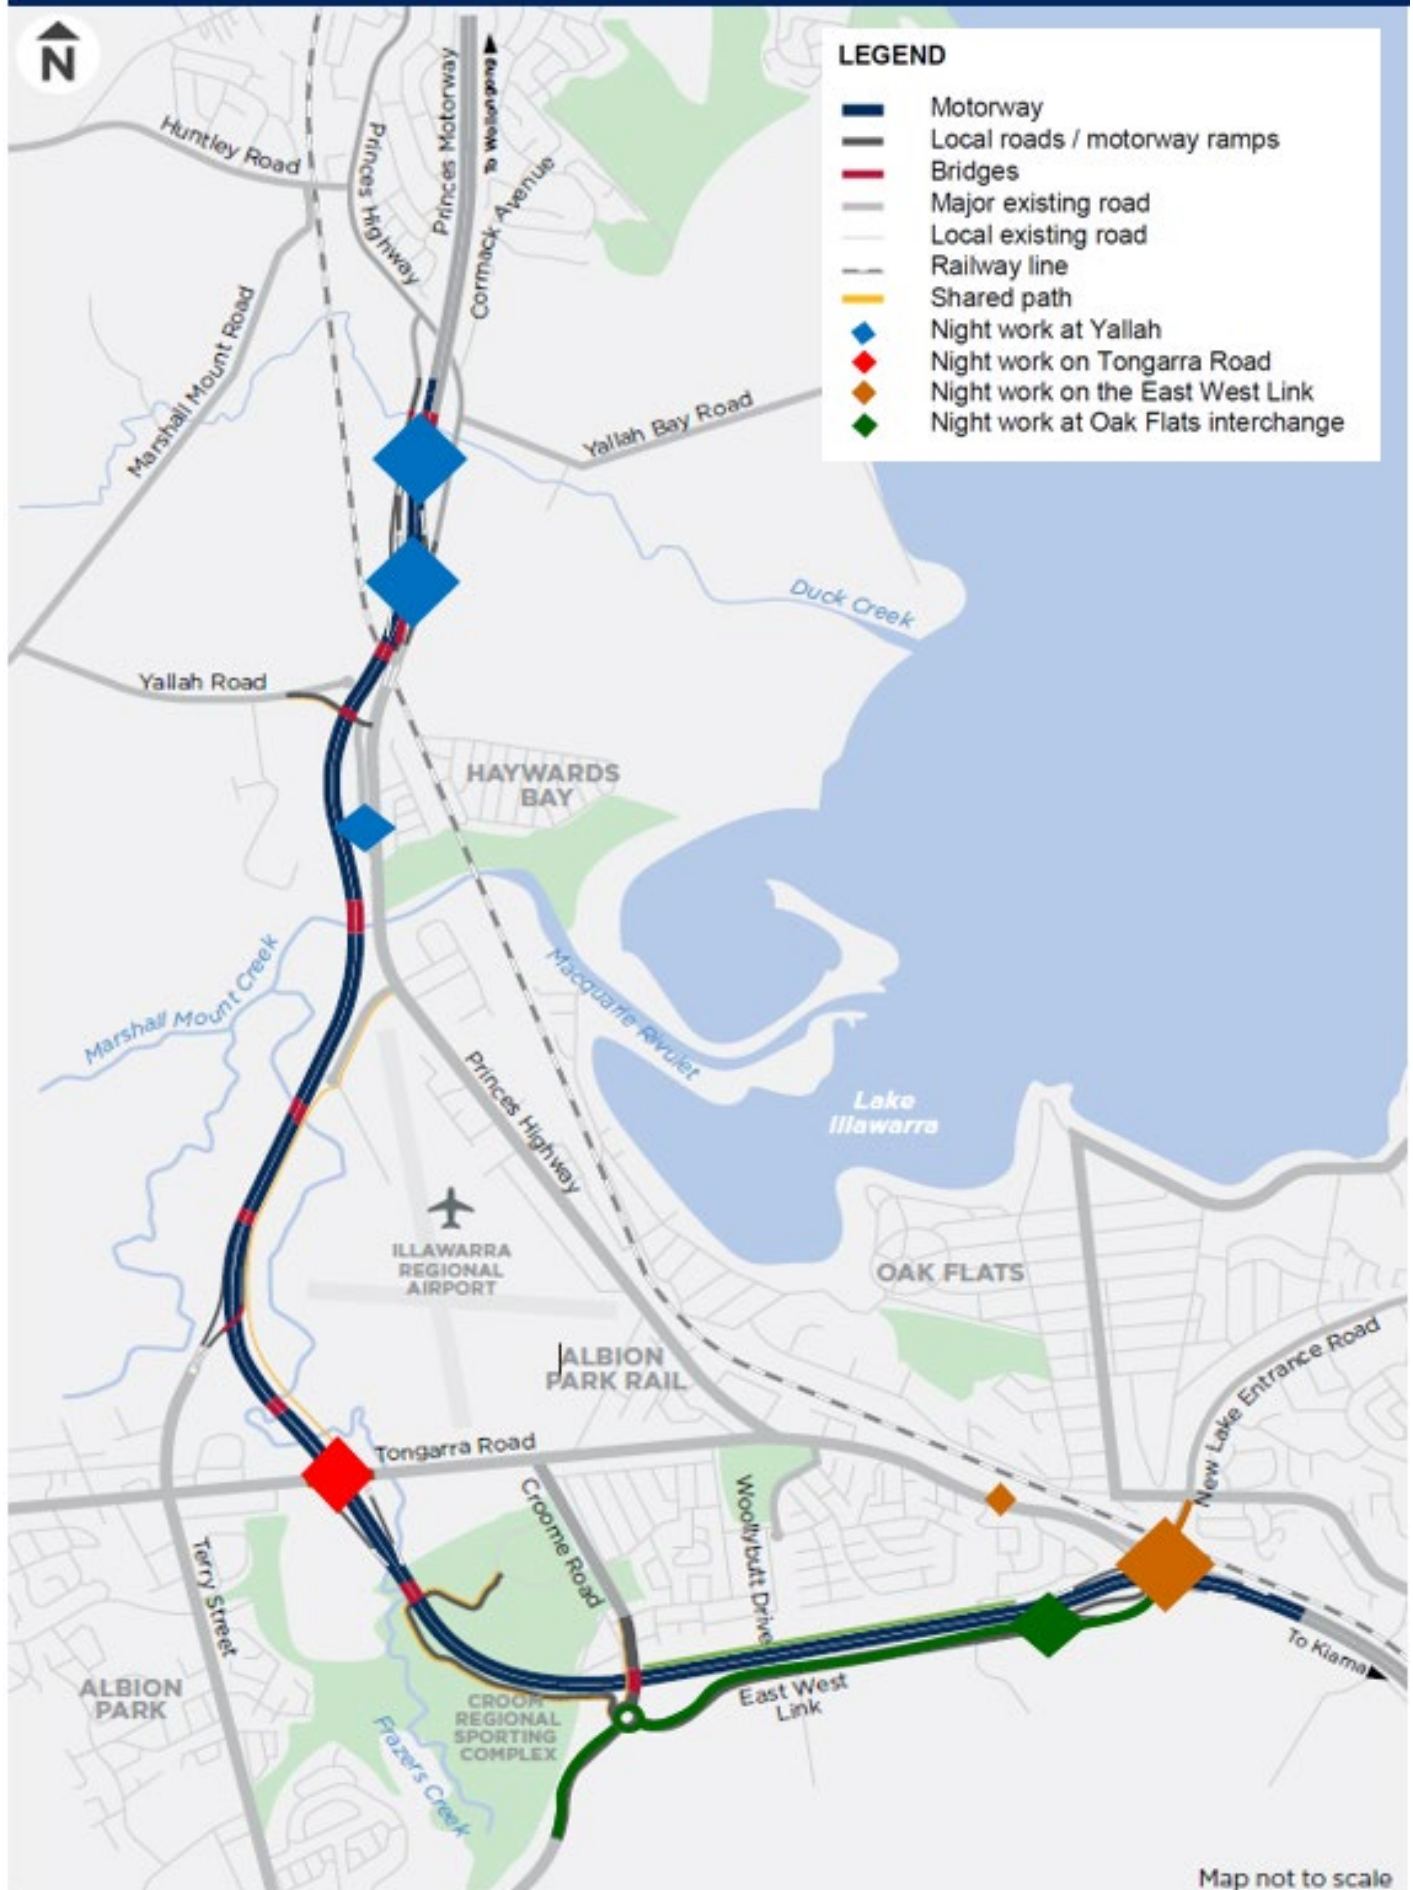

- turning off machinery and vehicles when not in use
- using noise shields
- directing temporary lighting down and away from homes
- planning activities close to residents within standard construction hours and scheduling noisy activities earlier in the night, where possible
- fitting equipment with devices to minimise noise including reversing squawkers rather than beepers
- monitoring noise so we can manage any potential impacts and adjust our work, where possible.

### Traffic changes

As the weather warms up the final pavement layers and linemarking will be placed on the new motorway. Some of this work may be carried out on weekends between 8am and 5pm to minimise delays for road users.

During the remaining night work, traffic control will be in place for the safety of workers and road users and detours may be required. See the table included for more information. Please keep to the sign posted speed limits and follow the direction of traffic controllers. Electronic message signs will advertise dates in advance.

## Location of out of hours work during October 2021

Activity	Occurrence	Work outside standard hours	Traffic changes	Impact	Why
<b>Yallah</b>					
<p>Preparing for traffic including hammering, saw cutting, building road pavement, kerb and gutter, placing and removing temporary traffic barriers, guardrail, street lighting, signage and line marking.</p> <p>We will also be using the Yallah ancillary site during the month. This may include delivering plant, equipment, material and concrete barriers.</p>	Up to 15 occurrences	Sunday to Friday between 7pm and 7am	<p>Lane closures, stop/slow traffic changes and reduced speed limit of 40km/hr.</p> <p>Some of this work may require temporary closure of the northbound Dapto exit ramp at night. Light vehicles will be detoured via Marshall Mount Road and heavy vehicles via Northcliffe Drive, Berkeley.</p> <p>Some of this work may require temporary closure of the southbound entry ramp to the Princes Highway at Yallah (near the Woolshed) at night for up to three nights. Light vehicles will be detoured via Marshall Mount Road and heavy vehicles via Northcliffe Drive, Berkeley.</p> <p>Some of this work may require a temporary closure of the northbound Princes Highway entry ramp to the M1 Princes Motorway from Albion Park Rail. A detour will be in place via the Dapto exit ramp, Princes Highway and Fowlers Road, Dapto.</p>	<p>Lighting towers and generators</p> <p>Road profiler and asphalt machinery</p> <p>Jackhammers, post rammer and small tools</p> <p>Trucks and light vehicles</p>	Safety Traffic
<b>Tongarra Road</b>					
Preparing for traffic changes including saw cutting, building road pavement, placing and removing temporary traffic barriers, kerb and gutter, traffic signals, signage, utility connection work and line marking.	Up to five occurrences	Sunday to Friday between 7pm and 7am	<p>Lane closure, stop/slow traffic changes and reduced speed limit of 40km/hr.</p> <p>Some of this work may require a temporary closure of Tongarra Road. During full closures, light vehicles will be detoured via Terry Street and Croome Road. Heavy vehicles will be detoured via the Princes Highway and East West Link.</p>	<p>Lighting towers and generators</p> <p>Road profiler and asphalt machinery</p> <p>Jackhammers, post rammer and small tools</p> <p>Trucks and light vehicles</p>	Safety Traffic
<b>East West Link and Croome Road</b>					
Preparing for traffic changes including saw cutting, building road pavement, placing and removing temporary traffic barriers, kerb and gutter, traffic signals, signage, line marking and landscaping.	Up to 15 occurrences	Sunday to Friday between 7pm and 7am	<p>Lane closure, stop/slow traffic changes and reduced speed limit of 40km/hr.</p> <p>We may need to close the East West Link at night and on one Sunday during the day. A detour via Croome Road, Tongarra Road and the Princes Highway will be in place during full closures.</p>	<p>Lighting towers and generators</p> <p>Road profiler and asphalt machinery</p> <p>Jackhammers, post rammer and small tools</p> <p>Trucks and light vehicles</p>	Safety Traffic

Oak Flats interchange and existing Princes Highway					
Preparing for traffic changes including hammering, saw cutting, installing drainage, building road pavement, building kerb and gutter, placing and removing temporary traffic barriers, street lighting, signage and line marking.	Up to 15 occurrences	Sunday to Friday between 7pm and 7am	<p>Lane closure, stop/slow traffic changes and reduced speed limit of 40km/hr.</p> <p>Some of this work may require a temporary detour of southbound Princes Highway via the Oak Flats interchange roundabout at night.</p> <p>The northbound entry ramp to the Princes Highway will be closed for up to two nights with a detour via East West Link and Princes Highway.</p> <p>New Lake Entrance Road westbound between Pioneer Drive and the Oak Flats interchange will be closed for up to two consecutive nights with a detour via Pioneer Drive and the Princes Highway.</p>	<p>Lighting towers and generators</p> <p>Road profiler and asphalt machinery</p> <p>Jackhammers, post rammer and small tools</p> <p>Trucks and light vehicles</p>	Safety Traffic
New Lake Entrance Road					
Preparing for traffic changes including removing the exiting pavement with equipment including road profiler, jackhammers, small hand tools, laying new pavement, installing signage and linemarking.	Up to two occurrences	Sunday to Friday between 7pm and 7am	<p>Lane closure, stop/slow traffic changes and reduced speed limit of 40km/hr.</p> <p>New Lake Entrance Road westbound between Pioneer Drive and the Oak Flats interchange will be closed for up to two consecutive nights with a detour via Pioneer Drive and the Princes Highway.</p>	<p>Lighting towers and generators</p> <p>Road profiler and asphalt machinery</p> <p>Jackhammers, post rammer and small tools</p> <p>Trucks and light vehicles</p>	Safety Traffic

For the latest traffic updates call 132 701, visit [livetraffic.com](http://livetraffic.com), or download the Live Traffic App.

We thank you for your patience during this important work.
