

## Night work on the Illawarra Highway, Albion Park Rail during November and December

We will be carrying out essential night work on the Illawarra Highway as part of the Albion Park Rail bypass over the next month.

### What are we doing?

We will be relocating utility services, installing signage and relocating traffic barriers on the Illawarra Highway. Work will include trenching, saw cutting, excavation, installing new conduits, fitting valves and pipes, backfilling, laying asphalt, line marking and reinstating ground surfaces.

Work is required outside normal project hours for the safety of road users and workers to avoid extended traffic delays.

Work will be carried out for around **10 nights over a five week period** from **Monday 18 November** between **7pm and 6am**, weather permitting.

Electronic signs on the highway will advertise specific dates and detour information in advance.

We will make every effort to minimise disruption including noise and light by scheduling noisier activities earlier in the night, using noise shields where possible and positioning equipment away from properties where possible.

### Traffic impacts

Some of this work will be carried out during the day, resulting in single lane closures and stop/slow traffic conditions, some of this work will require closure of the Illawarra Highway at night.

During closures, motorists will be detoured via the Princes Highway and Tongarra Road.

Motorists are advised to drive to the conditions, and follow the directions of detour signs and traffic control.

For the latest traffic updates call 132 701, visit [livetraffic.com](http://livetraffic.com), or download the Live Traffic App.

We thank you for your patience during this important work.

to be  
bypassed between  
**Sydney and  
Bomaderry**

Improved  
**connectivity**  
for the Albion Park  
community
