

Albion Park Rail bypass – out of hours work in August

We will be working outside our standard construction hours from **Sunday 1** until **Tuesday 31 August 2021**. Please see the map and table included for details.

Work outside standard construction hours

There are several reasons why work is required outside standard construction hours including:

- **Safety** – work outside standard construction hours helps us improve safety by reducing interactions between motorists, pedestrians and workers
- **Traffic** – to safely carry out activities traffic may be stopped, detoured or reduced to one lane. By working at night, delays are minimised and journey times for motorists and businesses are less affected
- **Utilities** – work may be required at night to minimise impacts on utility services and networks
- **Weather** – even when it's not raining, temperature and wind can impact activities including placing concrete and laying asphalt
- **Quality** – the quality of concrete and asphalt can be impacted if activities are not continuous
- **Environment** – after rain, sediment basins that are used to catch water from the construction site require maintenance and draining.

How will the work impact me?

At times we will use machinery and equipment that generate light, noise and vibration. We will make every effort to minimise disruption by:

- turning off machinery and vehicles when not in use
- using noise shields
- directing temporary lighting down and away from homes
- planning activities close to residents within standard construction hours and scheduling noisy activities earlier in the night, where possible
- fitting equipment with devices to minimise noise including reversing squawkers rather than beepers
- monitoring noise so we can manage any potential impacts and adjust our work, where possible.

Traffic changes

Traffic control will be in place for the safety of workers and road users and detours may be required. See the table included for more information. Please keep to the sign posted speed limits and follow the direction of traffic controllers. Electronic message signs will advertise dates in advance.

Location of out of hours work 1 – 31 August 2021

Activity	Occurrence	Work outside standard hours	Traffic changes	Impact	Why
Yallah					
Preparing for traffic including hammering, saw cutting, building road pavement, kerb and gutter, installing drainage, placing and removing temporary traffic barriers, guardrail, traffic controls, street lighting, signage and line marking.	Up to 15 occurrences	Sunday to Friday between 7pm and 7am	Lane closures, stop/slow traffic changes and reduced speed limit of 40km/hr. Some of this work may require temporary closure of the Dapto exit ramp at night for up to three nights. Light vehicles will be detoured via Marshall Mount Road and heavy vehicles via Northcliffe Drive, Berkeley. Some of this work may require temporary closure of the southbound entry ramp to the Princes Highway at Yallah (near the Woolshed) at night for up to one night. Light vehicles will be detoured via Marshall Mount Road and heavy vehicles via Northcliffe Drive, Berkeley.	Lighting towers Generator Trucks and light vehicles	Safety Traffic Utilities
New motorway between Yallah and Albion Park					
Preparing for traffic changes at the Albion Park (Terry Street) and Yallah interchanges including building road pavement, placing and removing temporary traffic barriers, street lighting, signage and line marking.	Up to four occurrences	Sunday to Friday between 7pm and 7am	Lane closure, stop/slow traffic changes and reduced speed limit of 40km/hr.	Lighting towers Generator Trucks and light vehicles	Safety Traffic
Tongarra Road					
Preparing for traffic changes including saw cutting, building road pavement, installing drainage, placing and removing temporary traffic barriers, traffic signals and controls, signage, utility connection work and line marking.	Up to 15 occurrences	Sunday to Friday between 7pm and 7am	Lane closure, stop/slow traffic changes and reduced speed limit of 40km/hr. We may need to close Tongarra Road for up to five nights to carry out some of this work. During full closures, light vehicles will be detoured via Terry Street and Croome Road. Heavy vehicles will be detoured via the Princes Highway and East West Link.	Lighting towers Generator Trucks and light vehicles	Safety Traffic

Oak Flats interchange					
Preparing for traffic changes including hammering, saw cutting, installing drainage, building road pavement, clearing vegetation, building kerb and gutter, placing and removing temporary traffic barriers, traffic control signals, street lighting, signage and line marking.	Up to eight occurrences	Sunday to Friday between 7pm and 7am	Lane closure, stop/slow traffic changes and reduced speed limit of 40km/hr. The southbound exit ramp from the Princes Highway may be closed for one night with a detour via the Princes Highway and Shellharbour Road. New Lake Entrance Road westbound between Pioneer Drive and the Oak Flats interchange will be closed for up to two nights with a detour via Pioneer Drive and the Princes Highway. The northbound entry ramp to the Princes Highway will be closed for up to two nights with a detour via the Princes Highway and Shellharbour Road. The northbound exit ramp from the Princes Highway will be closed for up to two nights with a detour via the Princes Highway and Colden Drive, Albion Park Rail.	Lighting towers Generator Trucks and light vehicles	Safety Traffic
