

Night work at the intersection of Woollybutt Drive, Nehme Avenue and Princes Highway, Albion Park Rail

Work is progressing on the Albion Park Rail bypass, with construction expected to be complete in 2022.

What are we doing?

We will be continuing essential night work to prepare for the installation of traffic signals at the intersection of Woollybutt Drive, Nehme Avenue and Princes Highway, Albion Park Rail.

Work is required outside normal project hours for the safety of workers and road users and to minimise traffic delays.

There will be around 15 night shifts over a three week period, starting from **Monday 2 December**, weather permitting. This work will be carried out between **7pm and 7am**.

Electronic signs will advertise specific dates in advance.

There may be some noise associated with this work and we will make every effort to minimise disruption by using noise shields, scheduling noisier activities earlier in the night and turning off machinery and vehicles when not in use.

Residents will have access to their driveways at all times. Parking on this section of the Princes Highway may be restricted during this work.

Traffic changes

For the safety of road users and our workers, traffic control will be in place to ensure the work zones are safe.

Planned traffic changes will include a partial road closure of Woollybutt Drive and temporary detours via the East West Link for around four nights, lane and shoulder closures on the Princes Highway, intermittent stop/slow traffic conditions and reduced speeds of 40 km/h during work.

Please keep to the sign posted speed limits and follow the direction of traffic controllers at all times.

For the latest traffic updates call 132 701, visit livetraffic.com, or download the Live Traffic App.

We thank you for your patience during this important work.
