

Wentworth Avenue and Baker Street intersection upgrade

Transport for NSW is taking action to improve the Wentworth Avenue and Baker Street intersection at Banksmeadow. The project is funded by the NSW and Australian Government.

What we have done so far

Geotechnical surveys and service investigations are now complete.

Tree trimming and removal of vegetation and trees within the work zone has commenced to facilitate overhead and underground works.

What we are doing from June to July

We will be:

- relocating overhead and underground services
- upgrading the existing stormwater network and construction of additional stormwater drains
- continuing with tree trimming and removal of vegetation and trees within the work zone
- roadway upgrade works, including temporary demolition of existing concrete median and new pavement construction.

Work schedule

Work hours will be between **7pm to 6am, Sunday to Thursday**, weather permitting. Most of the work is required to be undertaken at night for the safety of workers and road users, and to minimise the impact on the road network. To reduce impacts on the community, high noise will be scheduled **before 12am** wherever possible, and work will be limited to five nights per week.

What to expect

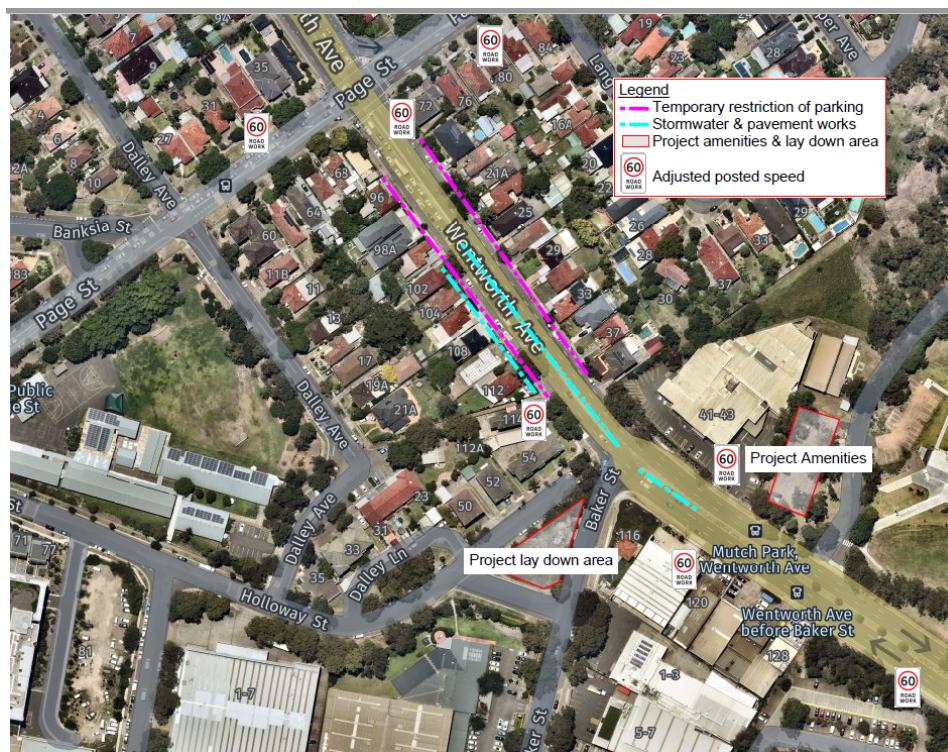

- **Intermittent periods of high noise** with the use of equipment and machinery for activities such as saw cutting and demolition of existing pavements. These activities will cease by midnight. Noise monitoring will be in place and measures to reduce noise will be implemented wherever possible, including the use of noise blankets, turning off machinery/equipment when not in use and replacing reversing beepers with clickers
- **Directional lighting** will be in place for the safety of our workers however lights will be directed away from residential properties wherever possible.
- **Traffic lane closures** will be set up each night to facilitate construction and for the safety of workers. Lane closures will be in place from **8pm to 5am** from Sunday to Thursday.

- **Temporary restriction of driveway access** works will be carried out in front of some driveways, limiting access. Traffic controllers will be in place to allow access as required. We will notify residents who may be impacted directly prior to commencement of the works.

Traffic and parking changes

- **Temporary restriction of parking** between 19-39 Wentworth Avenue eastbound and 112- 96 Wentworth Avenue westbound. The project team will intermittently place traffic cones in required parking spaces to facilitate work. Please refrain from parking where traffic cones are placed. Refer to the image below for further information.
- **Traffic controllers** will be in place to safely direct vehicles and pedestrians around the work site
- **Temporary reduction in speed to 60kms** will be in place for the duration of the project.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call **132 701**, visit **livetraffic.com** or download the **Live Traffic NSW App**.
