

Traffic changes on Princes Highway at Croziers Road

The NSW Government is upgrading the Princes Highway between Berry and Bomaderry to improve safety, increase road capacity and improve traffic flow.

What are we doing?

We will be relocating the intersection of Croziers Road and the Princes Highway at Jaspers Brush to its final location, south of the current intersection. Traffic movements will be changed to meet the new design of the highway.

In preparation for these changes, we will be carrying out safety barrier relocation, signage installation, pavement work and line marking on the Princes Highway on **Wednesday 9 and Thursday 10 June**, weather permitting. Work will be carried out between **6pm** and **6am** to minimise the impact to motorists. Should the work need to be postponed, new dates will be advertised on variable message signs.

Once this work is complete, the new intersection will open to traffic in its final configuration from **Friday 11 June**. The right turn into Croziers Road for southbound traffic will be maintained while traffic exiting Croziers Road will be left out only. To travel south towards Nowra, motorists should use the U-turn facility at Mullers Lane.

Croziers Road will be temporarily reduced to one lane just west of the Princes Highway while we complete some work to the road alignment. Traffic lights will control traffic on this section of Croziers Road while we complete this work and will be in place for about four weeks.

Please see the map over the page for the location of the work.

How will it affect you?

There will be some short traffic stoppages while the one lane arrangement is in place so please obey the traffic lights and follow the directions of traffic controllers and signage.

The Croziers Road bus stop will be moved to the U-turn bay as per the below map. We have consulted with bus companies, emergency services and Council who are aware of the access changes.

We will make every effort to minimise disruption during this work. Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates call 132 701, visit livetraffic.com, or download the Live Traffic App.

We thank you for your patience during this important work.
