

Changed traffic conditions Croziers Road, Berry to Bomaderry 2019

The NSW Government is upgrading the Princes Highway between Berry and Bomaderry to improve safety, increase road capacity and improve traffic flow.

What are we doing?

We will be constructing a new, temporary entrance to Croziers Road. This temporary diversion will allow the project team to begin work on the permanent road while maintaining access for residents.

How will it affect you?

Work on the temporary road is expected to begin in late October and will take about six weeks, weather permitting. The existing bus stop will still be in operation until the temporary diversion is complete, at which time it will relocate to the temporary turning bay. We have consulted with bus companies, emergency services and Council who are aware of the access changes.

There may be some short traffic stoppages during construction so please follow the directions of traffic controllers and signage.

Once complete, traffic will be moved onto the temporary diversion. This will be in place for several months until the permanent road is constructed and opened to traffic.

We will make every effort to minimise disruption during this work. Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates call 132 701, visit livetraffic.com, or download the Live Traffic App.

We thank you for your patience during this important work.

A map of the changes is provided over the page.
