

APRIL 2012

Dear resident

Re: Berry to Bomaderry upgrade, Princes Highway

I am sending you this letter as part of our commitment to keep you informed of the latest project developments on the proposed upgrade of the Princes Highway between Berry and Bomaderry.

Roads and Maritime Services (formerly RTA) is working on the concept design of the proposed highway upgrade. The design team has made a number of proposed changes to the concept design since the route selection was finalised and displayed in June 2009. In the coming weeks we will be contacting potentially directly affected residents to discuss the design.

Changes to the design have included:

- Amending access arrangements to properties accessing the Princes Highway.
- A proposed combined rest area/inspection truck facility near Meroo Meadow.
- Safety improvements to bus stops by relocating them off the Princes Highway.

The concept design maps are available to view on the project website at www.rta.nsw.gov.au/bbu.

We encourage residents and stakeholders to visit the Berry project office located at Broughton Court, shop 3/113, Queen Street, Berry, to review the current draft concept design drawings. The project office is open on Fridays from 10am to 5pm. Information on the proposed upgrade is also available on the project website at www.rta.nsw.gov.au/bbu.

If you would like to speak to a member of the project team, please call the project information line on **1800 506 976** (free call).

Thank you for your continued input into the proposed highway upgrade.

Yours faithfully

Nick Boyd

Project Development Manager
