Volume 1

Executive summary		i
1	Introduction	1
1.1	Proposal identification	1
1.2	Purpose of the report.....	6
2	Need and options considered	7
2.1	Strategic need for the proposal	7
2.2	Existing road and infrastructure.....	11
2.3	Proposal objectives	12
2.4	Statement of strategic need.....	12
2.5	Alternatives and options considered	12
2.6	Preferred option	24
2.7	Design refinements.....	25
3	Description of the proposal	28
3.1	The proposal.....	28
3.2	Design parameters	30
3.3	Major design features	33
3.4	Construction activities.....	50
3.5	Public utility adjustment	60
3.6	Property acquisition	62
4	Statutory and planning framework	63
4.1	State Environmental Planning Policies.....	63
4.2	Local Environmental Plans	65
4.3	Other relevant legislation.....	70
4.4	Commonwealth legislation.....	73
4.5	Confirmation of statutory position	73
5	Consultation	74
5.1	Consultation objectives and strategy.....	75
5.2	Consultation processes and activities to date	76
5.3	Summary of issues raised about the proposal	93
5.4	Future consultation	107
6	Environmental assessment	109
6.1	Traffic and transport	109
6.2	Noise and vibration.....	129
6.3	Biodiversity	165
6.4	Surface water and groundwater quality	195
6.5	Flooding	208
6.6	Landscape character and visual amenity	228
6.7	Aboriginal heritage.....	250
6.8	non-Aboriginal heritage	269
6.9	Property and land use	296
6.10	Socio-economic	313

6.11	Geology and soils	326
6.12	Air quality	340
6.13	Hazard and risk	349
6.14	Waste management	354
6.15	Greenhouse gas and climate change.....	361
6.16	Cumulative impacts	366
6.17	Summary of beneficial effects	375
6.18	Summary of adverse effects.....	376
7	Environmental management	378
7.1	Environmental management plans (or systems)	378
7.2	Summary of safeguards and management measures	378
7.3	Licensing and approvals.....	423
8	Conclusion	424
8.1	Justification.....	424
8.2	Objects of the EP&A Act.....	426
8.3	Conclusion.....	430
9	Certification.....	432
9	References	433
10	Glossary	437

Volume 2

Appendix A	Clause 228 and MNES
Appendix B	Consultation
Appendix C	Technical paper: Traffic and transport
Appendix D	Technical paper: Noise and vibration
Appendix E	Technical paper: Terrestrial flora and fauna
Appendix F	Technical paper: Aquatic ecology and water quality management
Appendix G	Technical paper: Surface water, groundwater and flooding
Appendix H	Technical paper: Urban design, landscape character and visual impact assessment
Appendix I	Aboriginal cultural heritage assessment report
Appendix J	Technical paper: Non-Aboriginal (historic) heritage
Appendix K	Technical paper: Socio-economic

List of tables

Table 2-1	Description of sections within the context of the three upgrade projects
Table 3-1	Design criteria
Table 3-2	Dimensions of fill embankments
Table 3-3	Dimensions of cuttings
Table 3-4	Description of changes to local roads and junctions
Table 3-5	Proposed bridge structures
Table 3-6	Street furniture
Table 3-7	Indicative pre-construction and construction activities
Table 3-8	Possible out-of-hours construction work
Table 3-9	Selection criteria for temporary construction ancillary facilities
Table 4-1	Objectives of the applicable Shoalhaven LEP 1985 land use zonings
Table 5-1	Overview of consultation process and activities to date
Table 5-2	Methods of communication with community and stakeholders following the publication of the preliminary concept design in April 2012
Table 5-3	Summary of community feedback and changes to the preliminary concept design as a result of community feedback received in 2012
Table 5-4	Shoalhaven City Council's response to consultation in accordance with clauses 13, 14 and 15 of ISEPP
Table 5-5	Issues raised by government agencies
Table 5-6	Issues raised by local government
Table 5-7	Issues raised by the community
Table 5-8	Issues raised by the Aboriginal community and Local Aboriginal Land Councils
Table 5-9	Issues raised by specialist interest groups
Table 6-1	Traffic modelling scenarios
Table 6-2	AADT traffic growth summary (1990–2012)
Table 6-3	Level of service criteria for intersections
Table 6-4	2013 highway (midblock) level of service summary
Table 6-5	2039 highway (midblock) level of service summary ('Do nothing' scenario)
Table 6-6	2013 intersection level of service summary
Table 6-7	2039 intersection level of service summary ('Do nothing' scenario)
Table 6-8	Average weekday travel mode share for the Shoalhaven LGA and Sydney greater metropolitan area (2010/11)
Table 6-9	2019 highway (midblock) level of service summary (construction scenario)
Table 6-10	2019 intersection level of service summary (construction scenario)
Table 6-11	2039 highway (midblock) level of service summary ('Do something' scenario)
Table 6-12	2039 intersection level of service summary ('Do something' scenario)
Table 6-13	Traffic safeguards and management measures
Table 6-14	Background noise levels

Table 6-15	Daytime and night time road traffic noise levels
Table 6-16	Noise management levels for residences for airborne noise
Table 6-17	Noise management levels for the proposal
Table 6-18	Noise management levels at sensitive land uses (other than residential) that are applicable to the proposal
Table 6-19	Standards/guidelines used for assessing construction vibration
Table 6-20	Structural damage vibration limits
Table 6-21	Recommended ground-borne noise goals for construction activities
Table 6-22	Road traffic noise criteria for residential receivers
Table 6-23	Relative increase criteria for residential land use
Table 6-24	Noise assessment criteria for other sensitive land uses
Table 6-25	Environmental noise criteria for the proposal
Table 6-26	Construction equipment required for general construction works
Table 6-27	Predicted levels of construction noise during standard construction hours (daytime)
Table 6-28	Predicted levels of construction noise during the evening
Table 6-29	Predicted levels of construction noise during the night time period
Table 6-30	Sleep disturbance assessment – bridgeworks
Table 6-31	Sleep disturbance assessment – existing local road and new road tie-in works
Table 6-32	Predicted noise levels from ancillary facilities
Table 6-33	Recommended safe working distances for vibration intensive plant
Table 6-34	Exceedances of operational noise criteria at sensitive receiver locations with the proposal
Table 6-35	Noise safeguards and management measures
Table 6-36	Noxious weeds recorded in the study area
Table 6-37	Threatened fauna species with a medium to high likelihood of occurrence in the study area
Table 6-38	Impacts of the proposal to native vegetation within the study area
Table 6-39	Biodiversity safeguards and management measures
Table 6-40	Surface water and groundwater safeguards and management measures
Table 6-41	Flooding assessment sections
Table 6-42	Flooding safeguards and management measures
Table 6-43	Landscape character and visual impact grading matrix
Table 6-44	Landscape character and visual amenity safeguards and management measures
Table 6-45	New and existing site names and designations for PASAs following test excavations
Table 6-46	Summary of anticipated construction related impacts to Aboriginal heritage recordings
Table 6-47	Aboriginal heritage safeguards and management measures
Table 6-48	Summary of identified heritage items and potential impacts

Table 6-49	Analysis of potential non-Aboriginal heritage impact of each potential temporary construction ancillary facility
Table 6-50	Non-Aboriginal heritage safeguards and management measures
Table 6-51	Direct property impacts as at August 2013
Table 6-52	Physical changes to external property access
Table 6-53	Land use and property Safeguards and management measures
Table 6-54	Socio-economic safeguards and management measures
Table 6-55	Summary of the main geological units along the proposal
Table 6-56	Potentially contaminating activities within the Phase 1 ESA study area and associated contaminants of concern
Table 6-57	Areas of potential contamination concern
Table 6-58	Soils and geology safeguards and management measures
Table 6-59	Air quality monitoring data between 1997 and 2007
Table 6-60	NSW EPA air quality assessment criteria
Table 6-61	Estimated dust emissions from earthworks (pre-mitigation)
Table 6-62	Predicted maximum carbon monoxide concentrations at the most affected sensitive receiver in 2019 and 2029
Table 6-63	Predicted maximum nitrogen dioxide concentrations at the most affected sensitive receiver in 2019 and 2029
Table 6-64	Predicted maximum particulate concentrations at the most affected sensitive receiver in 2019 and 2029
Table 6-65	Air quality safeguards and management measures
Table 6-66	Hazard and risk safeguards and management measures
Table 6-67	Potential type and sources of waste generated during construction of the proposal
Table 6-68	Waste management safeguards and management measures
Table 6-69	Climate change risks and potential impacts
Table 6-70	Greenhouse gas and climate change safeguards and management measures
Table 6-71	Impacts to vegetation as a result of the Princes Highway upgrade program between Gerringong and Bomaderry
Table 6-72	Land acquisition required for the Princes Highway upgrade between Gerringong and Bomaderry
Table 6-73	Cumulative impacts safeguards and management measures
Table 7-1	Summary of site-specific environmental significance
Table 7-2	Summary of licensing and approvals required
Table 8-1	Objects of the EP&A Act and relevance to the proposal
Table 8-2	Application of the principles of ecologically sustainable development to the proposal

List of figures

- Figure 1-1** Overview of the proposal
- Figure 1-2** Regional context of the proposal
- Figure 2-1** Princes Highway upgrades on the NSW South Coast including upgrades between Waterfall and Jervis Bay Road
- Figure 2-2** Preferred proposal route within the context of the Princes Highway between Gerringong and Bomaderry
- Figure 2-3** Geographical sections within the context of the three upgrade projects between Gerringong and Bomaderry
- Figure 2-4** Long list of options
- Figure 2-5** Short listed route options
- Figure 3-1** Key features of the proposal
- Figure 3-2** Key features of the proposal
- Figure 3-3** Key features of the proposal
- Figure 3-4** Cross section of a typical four lane configuration on embankment
- Figure 3-5** Cross section of a typical four lane configuration in cut
- Figure 3-6** Jaspers Brush Road and Strongs Road grade-separated facility
- Figure 3-7** Morschels lane and Devitts Lane grade-separated facility
- Figure 3-8** Pestells Lane and Meroo Road grade-separated half-interchange
- Figure 3-9** Typical protected right turn bay and u-turn facility configuration
