

Temporary road closures on Carrington Road, Castle Hill from 16 September

September 2022

The Australian Government and NSW Governments are taking action to improve the reliability and efficiency of bus services, while easing congestion and improving safety for all road users.

Transport for NSW is upgrading the intersections of Showground Road at Carrington Road and De Clambe Drive and widening Showground Road and Carrington Road to provide extra turning lanes and bus lanes.

Due to the rain during the last closure, we couldn't complete the work allocated in that time and have re-scheduled. We will be safely completing some construction activities by closing Carrington Road between Showground Road and Middleton Avenue.

During this time, we will:

- complete the drainage protection slab at the Showground Road and Carrington Road intersection
- complete pavement work on the Showground Road and Carrington Road intersection

Our work schedule

The closures will take place **8pm Friday 16 September to 5am Monday 19 September 2022**, weather permitting. Our work hours will be **24 hours**, with noisier work finishing **before midnight**.

We have planned the work schedule so the upgrades can be completed as quickly as possible, limiting the disturbance on road users and the local community.

How will the work affect you?

We will do everything we can to limit the disturbance to the community:

- completing the noisiest activities such as jack-hammering and saw-cutting by **midnight**
- monitoring our construction noise levels
- using noise blankets around equipment where possible
- directing our lights away from residential properties near our work zone
- selecting less noisy equipment and switching off equipment when not in use
- scheduling vehicle delivery to day times or if not possible before midnight.

Traffic changes

Access for residents and pedestrians will be maintained on Carrington Road between Showground Road and Middleton Avenue.

Detours will be in place for **light vehicle traffic heading towards:**

- Castle Hill (eastbound) via Middleton Avenue, Parsonage Road and Old Northern Road.
- Kellyville (westbound) will use Andalusian Way and De Clambe Drive.

All traffic from Showground Road will be able to use De Clambe Drive, then left onto Andalusian Way and right to continue onto Carrington Road.

Heavy vehicle traffic will use De Clambe Drive as an alternative to Carrington Road to travel westbound on Showground Road.

Please keep to speed limits and follow signs and traffic controllers' directions.
