

Proposed new weekday clearways on Bexley Road, Campsie to Bexley

The NSW Government is funding this project as part of its \$121 million Clearways Program, which aims to reduce congestion and delays on Sydney's roads.

To support Sydney's growing population, the NSW Government is working towards delivering significant improvements to reduce Sydney's congestion.

We are proposing to introduce new weekday clearways on Bexley Road between Canterbury Road, Campsie and Forest Road, Bexley.

The proposed weekday clearway hours are listed below and shown on the map:

- **6:00am to 10:00am and 3:00pm to 7:00pm on weekdays in both directions.**

The proposed new weekday clearways would replace the existing timed 'No Parking' restrictions that operate from 6:30am to 9:30am and 3:30pm to 6:30pm Monday to Friday.

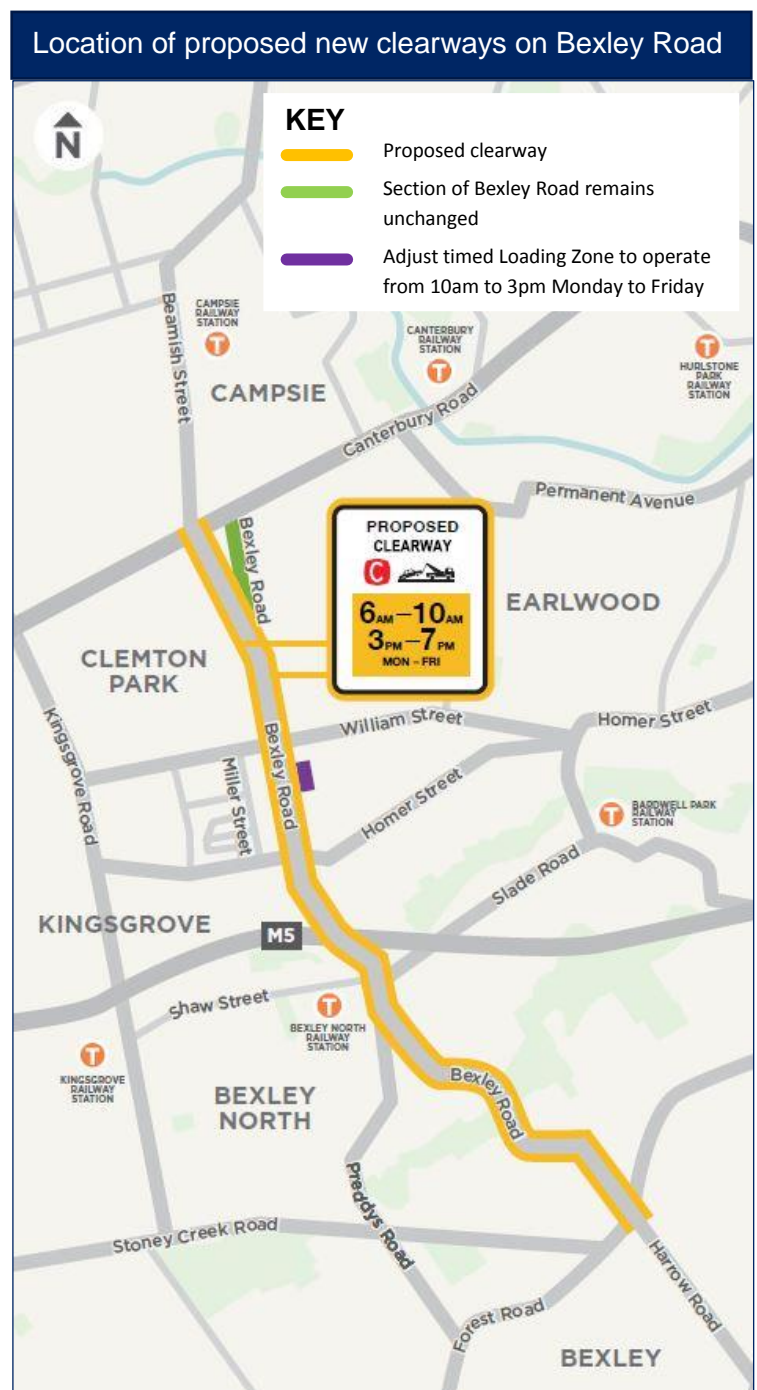

Other 'Bus Zone', 'No Stopping' and 'No Parking' restrictions remain unchanged.

The 'Loading Zone' near William Street would be adjusted to operate from 10:00am to 3:00pm Monday to Friday in conjunction with the proposed new weekday clearways.

What happens next?

The new weekday peak clearways are planned to be operational in July 2019.

We will inform you again before we start work.

What is a clearway?

A clearway is a section of road where stopping and parking is not allowed during the times shown on the clearway sign. Clearways are put on state roads where traffic is often heavy and congested. They help keep vehicles moving by making all lanes available to motorists.

The only exception is the stopping of buses and taxis dropping off or picking up passengers as well as emergency vehicles and postal vehicles accessing a public post box.

To report a vehicle parked in a clearway or if your vehicle has been towed from a clearway, please contact the Transport Management Centre on 131 700.

Background

The NSW Government announced the Sydney Clearways Strategy as one of its key initiatives to reduce congestion on Sydney's major roads. \$121 million was committed to implementing the strategy and installing new clearways on Sydney's road network.

Since 2013, we have installed over 550 kilometres of new and extended clearways across some of Sydney's busiest road corridors. We are continuing to investigate where new and extended clearways would help ease congestion and provide more reliable travel times for road users across the network.

What are the key benefits of clearways?

Clearways:

- reduce congestion by making an additional lane available to traffic
- improve journey times, allowing drivers to get to their destination sooner and more reliably
- improve safety by removing parked vehicles from the kerbside lane
- have an immediate positive impact on traffic flow as it uses existing road space for the movement of vehicles
- improve the efficiency of intersections along the corridor, as all lanes are used.
