

Continuing work on Dawson River Bridge, Manning River Drive, Cundletown from Tuesday 16 August

The NSW Government is investing in essential maintenance to preserve the structural integrity of Dawson River Bridge and to reduce future maintenance costs.

Transport for NSW and construction partner RMP Abrasive Blasting are continuing the final stage of work which includes painting the bridge and steel and concrete repairs as part of a painting and maintenance project.

Transport for NSW started work on Dawson River Bridge in late April 2021. Due to continuing weather impacts we have experienced delays to the completion of the repainting project. Work on Dawson River Bridge is expected to be completed in **December 2022**.

We will be continuing work to complete steel repairs and install and wrap scaffolding between **9am** and **3pm** from **Monday** to **Saturdays** and expect to complete this work in **mid-October**, weather permitting.

To minimise traffic disruptions, and to ensure the safety of workers and road users, some of the steel repair work may be carried out at night. Night work will be completed between **7pm** and **5am** from **Sunday** to **Thursday**. We expect this night work to be completed over **two weeks**, weather permitting.

We will let you know in advance if we need to do any work outside these times. We have included a map to show the work location below.

How will the work affect you?

The work involves the use of machinery which will generate some noise and light. We will make every effort to minimise noise and light by turning off machinery and vehicles when not in use.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

Single lane closures, stop/slow traffic arrangements and a 40km/h speed limit will be in place during work hours and may affect travel times. There will be no bridge closures or detours during or outside work hours.

During night work short stoppages may be required and will affect travel times. Electronic message boards will be in place to advise motorists of traffic changes.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

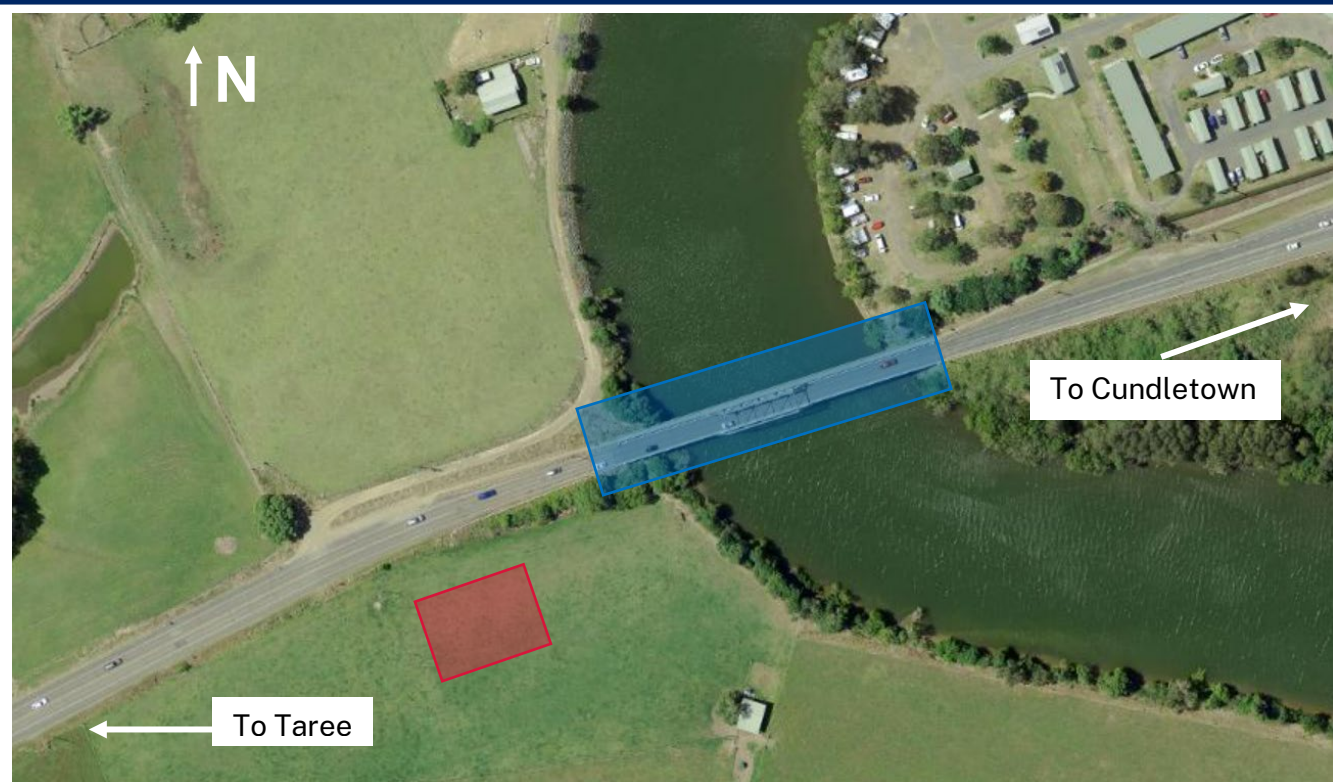

Contact

If you have any questions, please contact our Senior Project Engineer, Michael Rheinberger on 02 4908 7840 or Michael.Rheinberger@transport.nsw.gov.au
