

Australian Government

BUILDING OUR FUTURE

Devlin Street improvements

Transport for NSW | February 2022

The Australian and NSW Governments are taking action to improve Sydney's road network.

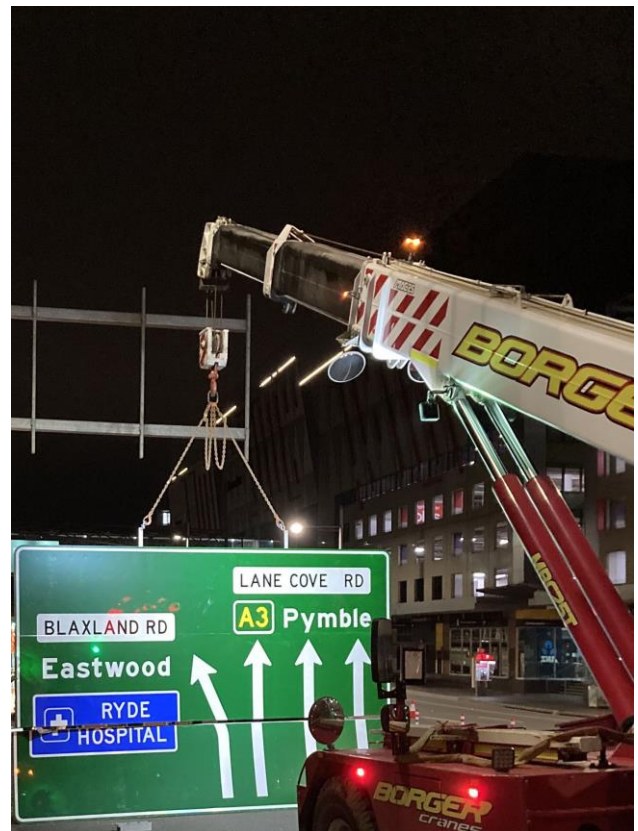

Transport for NSW continues work to add a fourth northbound lane on Devlin Street, Ryde between Victoria Road and Blaxland Road to:

- improve traffic flow and travel times through the Devlin Street, Blaxland Road and Parkes Street intersection
- reduce congestion, queuing and delays for northbound traffic on Devlin Street, especially during peak periods
- enhance safety for pedestrians and road users.

Recent work

In the past three months on Devlin Street we have installed

- two new light poles
- two new overhead direction signs
- a new median north of Blaxland Road
- the foundations for the new retaining wall along Devlin Street southbound.
- completed electrical works

Pictured above, a new sign being installed showing the new fourth northbound lane on Devlin Street, Ryde which is now open to traffic.

Stay up to date

You can read more about our construction activities, their duration and impacts on our website at nswroads.work/devlinst which we update monthly.

More efficient travel

Safety

Connecting people with places

You may have seen a road profiler at work on Devlin Street, a large machine with sharp steel teeth that grinds or removes the asphalt, which is the top layer of the road. Our teams use the profiler to remove the older asphalt to ensure the new road is a safe, smooth, and level driving surface.

You may notice that the new road surface looks a little unfinished. We need to wait until all work is completed before placing that final, perfectly smooth layer, also known as the 'wearing course'.

Did you know? Asphalt is a sustainable, reusable material. When we remove the old asphalt along Devlin Street, we recycle some of it for use in the future!

What's happening next?

Between **Sunday 13 February** and **Friday 6 May** along Devlin Street we will:

- continue to upgrade the retaining wall along Devlin Street southbound
- install overhead directional sign and southbound road signs
- finish a new road pavement, footpath, kerb, gutter and drainage along the southbound lanes
- continue to build the new median
- remove the old and lay new road resurface and line marking.

We will work up to **five nights** and **six days** each **week**. There will be no work on public holidays.

Our day work hours will be between **7am** and **6pm** from Monday to Friday and **8am** to **1pm** on Saturdays. Our night work hours will be between **8pm** and **5am** from Sunday to Friday.

How will the work affect you?

Our night work may be noisy at times. We will do everything we can to lessen the disruption including completing the noisier activities by **midnight**.

There will be temporary traffic changes on Devlin Street during our work hours to ensure the work zone is safe. For the latest traffic updates, you can call **132 701**, visit livetraffic.com or download the **Live Traffic NSW App**.
