

Transport for NSW

Double Bay Wharf Upgrade

Project planning approval received | April 2022

Following consideration of community and stakeholder feedback on the Double Bay Wharf Upgrade Review of Environmental Factors, the project has received planning approval.

We thank the community for your feedback – it will help to inform the detailed design and construction of the project.

The detailed design process will begin shortly. Due to wharf component supply issues, and requests to construct the wharf outside of the summer months, construction is now expected to begin in the first half of 2023. Construction will take up to six months to complete (weather permitting).

We will continue to keep the community updated as the project progresses.

Submissions report now available

The submissions report summarises the feedback we received and our responses.

View it on our website:

e wharfupgradeprogram@transport.nsw.gov.au
w nswroads.work/doublebaywharf

Thanks to community feedback we will investigate:

Extending bus 328
operating hours
during wharf closure

Reducing the
length of the wharf

Providing more
seating

Information about the other ways we are looking to refine the wharf upgrade is available in the submissions report online.
