Ellerton Drive Extension – progress update

The Australian and NSW Governments, together with Queanbeyan-Palerang Regional Council, are funding the \$86 million Ellerton Drive Extension. The 4.6km road provides an alternative route around the Queanbeyan CBD and connects east and west Queanbeyan to the new southern population growth areas. WBHO Infrastructure has been appointed to build the Ellerton Drive Extension. Construction is underway and expected to be completed in mid-2020, weather permitting.

Construction Progress

- Construction fencing has been established along the route
- Clearing for the road has commenced with efforts made to maintain existing plants where possible
- Dust and noise monitoring sites have been established at key locations along the route
- Signage and fencing is in place to clearly identify construction areas
- A median crossing for U-turn on the existing Ellerton Drive has been created
- Identification of underground utility services for upcoming noise wall construction on the existing Ellerton Drive.

Upcoming work

- Stormwater drainage installation under the new roadway
- Moving earth to commence building the new road
- Construction of noise walls along the existing Ellerton Drive
- Construction of bridge piles for the bridge over the Queanbeyan River
- Commencement of works between Queanbeyan River and the Edwin Land Parkway

Nearby residents

Representatives from the team have been visiting homes along the construction route and have spoken with over 200 residents about the project.
