

F6 Extension Stage 1 – Utility and Geotechnical investigations

The NSW government is progressing with the development of the F6 Extension Stage 1 between the New M5, Arncliffe and President Avenue, Kogarah.

Roads and Maritime Services is carrying out utility and geotechnical investigations to gather information about the underground electrical assets and ground conditions along President Avenue, Kogarah. The work will take place along President Avenue, between Moorefield Avenue and O'Connell Street, Kogarah and Brighton-Le-Sands.

We have included a map to show the location of the work.

We will be working up to **12 night shifts** from **Monday 8 January** until **Friday 2 February 2018**, weather permitting. Work will take place between **9pm and 4am** from **Monday to Wednesday, excluding public holidays**.

How will the work affect you?

The utility investigation work will involve potholing along President Avenue to understand the location of electrical assets within the road. This work will involve cutting out sections of the road, lifting out the cut sections, and surveying the location of assets under the road surface. The work requires the use of a road saw and a vacuum truck.

The geotechnical investigation work will involve drilling into President Avenue, to understand the ground conditions under the road surface. The work requires the use of light vehicles and a trailer mounted generator.

There will be some noise associated with this work. We will do everything we can to minimise its impact, and to minimise disturbance to the local community.

Traffic changes

There will be temporary traffic changes during our work hours to ensure the work zone is safe.

Lane closures and footpath closures will be in place and may affect travel times. There may be some parking restrictions on President Avenue to accommodate the work vehicle.

Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates, you can call 132 701, visit www.livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions please call our project team on **1800 789 297** during office hours (8:30am to 5pm Monday to Friday) or email **F6Extension@rms.nsw.gov.au** Thank you for your patience during this important work.

Location of work on President Avenue, Kogarah and Brighton-Le-Sands

Translating and Interpreting Service

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to telephone the F6 project team on 1800 789 297.
