

F6 Extension Stage 1

Site investigations between Bestic Street, Brighton-Le-Sands and West Botany Street, Rockdale from 26 August

We will be carrying out site investigations between Bestic Street, Brighton-Le-Sands and West Botany Street, Rockdale from Monday 26 August.

These investigations will provide us with important information to help us build the proposed shared cycle and pedestrian pathways.

This work will involve an assessment of the site and taking soil samples. Our work areas are shown on the map over the page.

Our work schedule

Work hours are between:

Monday to Friday, 7am and 6pm

We expect the work to take around 14 days to complete, weather permitting.

How will our work affect you?

Our work will be carried out in one area at a time to minimise impact. We will also help to reduce noise by using low noise reversing alarms on all machinery and turning off equipment and vehicles when they are not being used.

There will be no changes to traffic or pedestrian access to footpaths during this work.

What does our work involve?

We will be using light vehicles, scanning equipment, drilling rigs and hand tools during our work.

Once complete we will reinstate the area by replacing soil and relaying grass. This may lead to raised ground levels in some areas for a short period of time so please be careful.

Shared cycle and pedestrian pathway

Up to **23** traffic lights bypassed

Local amenity improved

New Shared cycle and pedestrian pathways

Location of investigation work
