

F6 Extension Stage 1

Work on Tantallon Avenue Arncliffe from Wednesday 5 December

The NSW Government is progressing with the development of the F6 Extension Stage 1 between the New M5 Motorway at Arncliffe and President Avenue at Kogarah.

Roads and Maritime Services will be carrying out geotechnical investigations on Tantallon Avenue, near the Princes Highway, Arncliffe. A map is included to show the location of the work.

These geotechnical investigations are being carried out to gather information about the ground conditions within the F6 Extension Stage 1 project area. The investigation work will involve drilling a borehole to extract soil samples using borehole drilling equipment. To carry out the work, light vehicles, drilling rigs and a trailer mounted generator will be in use. Heavy vehicles will not be used.

Our work schedule

We will be working between **Wednesday, 5 December** and **Friday, 21 December** weather permitting. Please note that if there are any delays with other geotechnical investigations we may delay this one until January 2019.

Our work hours will be between:

- Monday to Friday, 7am and 6pm
- Saturday, 8am to 1pm (if required).

The work will take around 12 days to complete.

How will the work affect you?

Our work may be noisy at times but we will do everything we can to minimise its impact.

To ensure the work zone is safe, Roads and Maritime will install temporary fencing and traffic cones around the work area for the duration of the drilling work.

Parking restrictions will also be in place for the duration of the work at the top end of Tantallon Avenue.

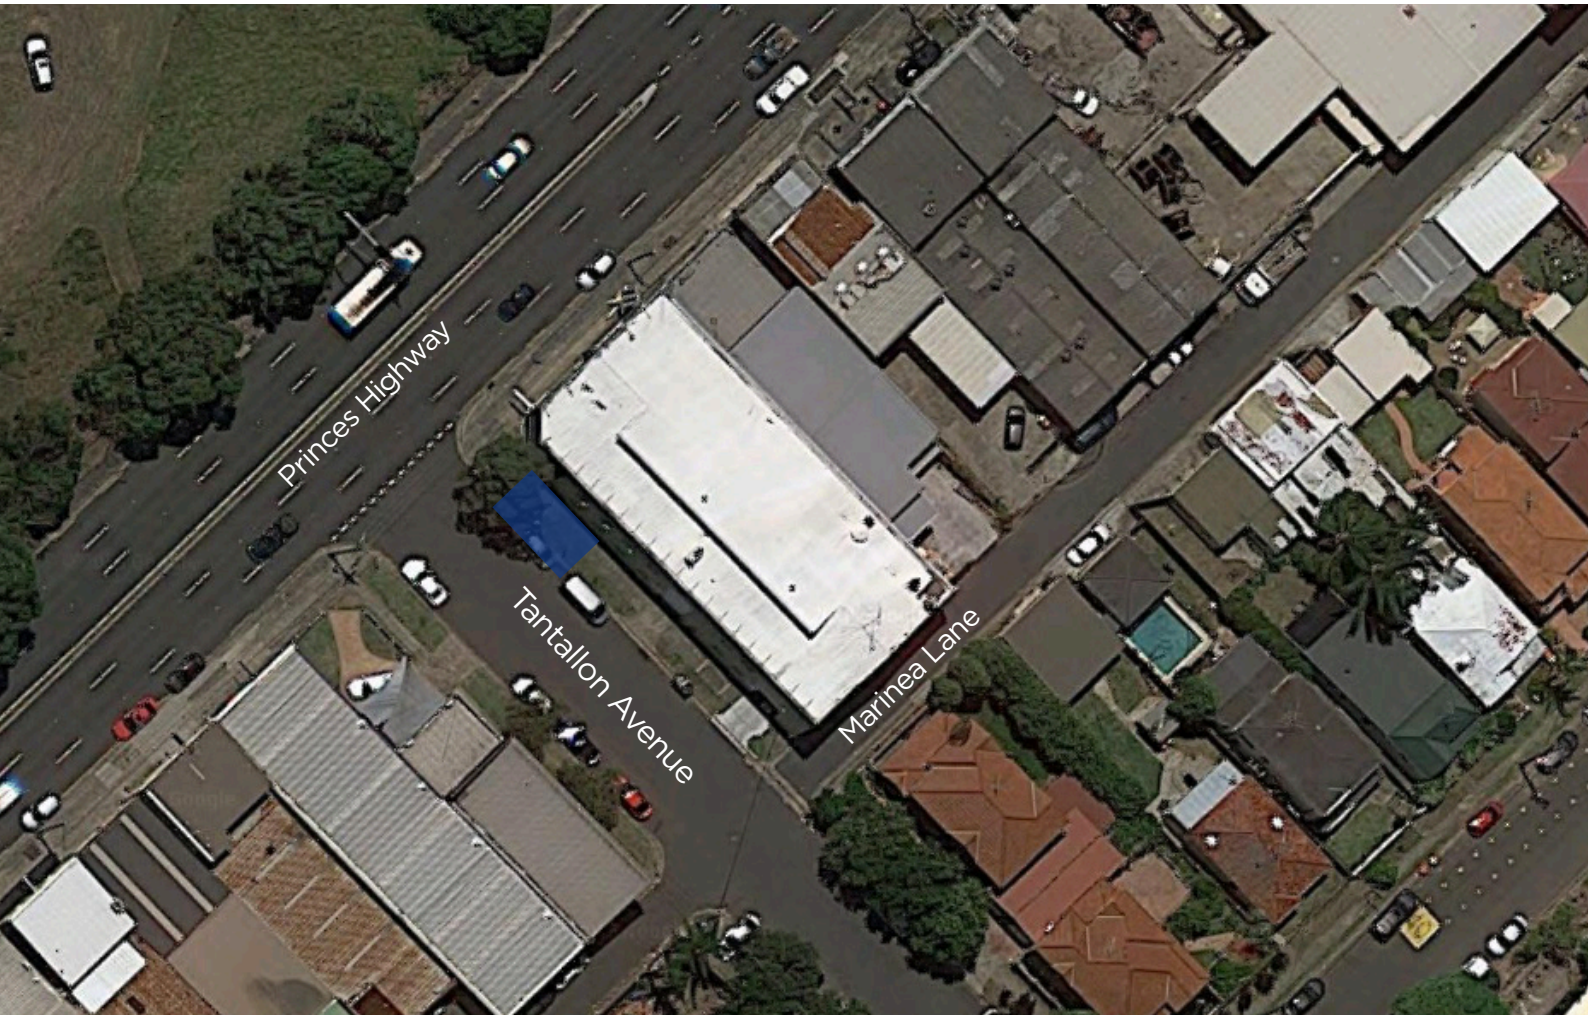

Traffic changes

There will be some temporary traffic changes in place including traffic control, during our work hours to ensure the work zone is safe.

Please keep to the speed limits and follow signs and traffic controllers' directions.

For the latest traffic updates, you can call 132 701, visit www.livetraffic.com or download the Live Traffic NSW App.
