

Berry Alliance Community Forum

Overview of the Victoria Street Origin-Destination (O-D) Surveys

David Bohm

Senior Transport Planner

AECOM

July 11, 2012

The aim of this presentation is to explain the Victoria Street O-D survey process, and summarise the data collected in May 2012 and presented at the Berry Alliance Community Forum on 14 June 2012:

- O-D survey objectives;
 - O-D survey timing;
 - O-D data capture process;
 - O-D data processing and analysis.
 - O-D survey results.
-

Objectives of the O-D survey process:

- Capture existing Victoria Street traffic patterns and volumes during typical weekday and weekend peak hours.
- Use this additional information to further develop detailed traffic modelling of Victoria Street and other local roads impacted by the Foxground and Berry bypass (FBB) project.
- Use this traffic modelling to inform the Berry community of existing Victoria Street traffic patterns and volumes, and guide decisions considering the relative potential impacts of closure (or non-closure) of Victoria Street.

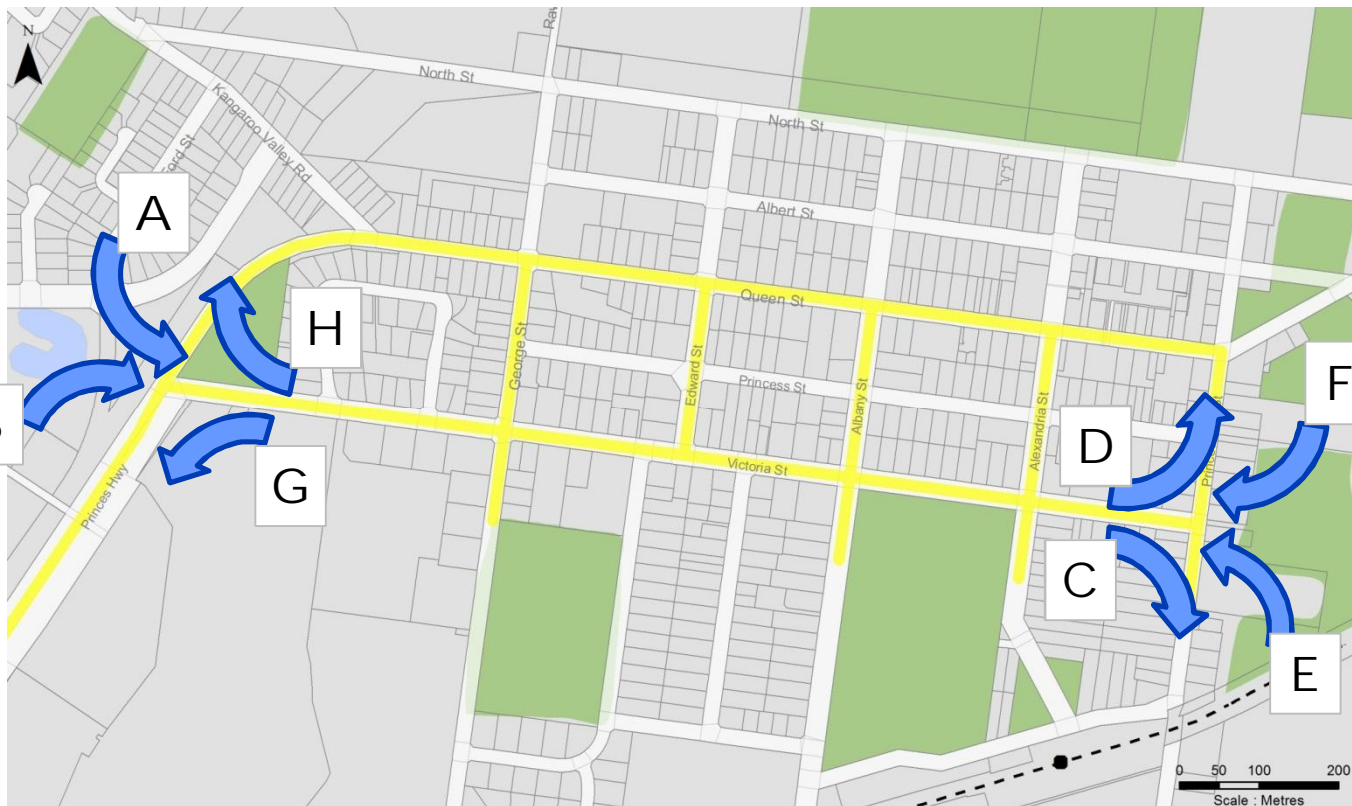

RMS commissioned an independent, local traffic surveying company to undertake surveys during the following days and times:

- Thursday 3 May 2012 & Friday 4 May 2012:
 - 8 to 10 AM
 - 3 to 6 PM
 - Traffic patterns and volumes during typical weekdays; e.g. trips to and from work, schools, shops, etc.
- Sunday 6 May 2012:
 - 10 AM to 1 PM.
 - Traffic patterns and volumes during a Berry Country Fair day – typically days with the largest volumes of traffic on Victoria Street due to vehicles arriving to and departing from the Berry Showground and the area immediately surrounding it.

Victoria Street O-D Survey Data Capture

During the surveyed periods the following information was collected:

- The time, registration and travel movement of all vehicles turning into and out of Victoria Street at both the eastern and western ends. Example:

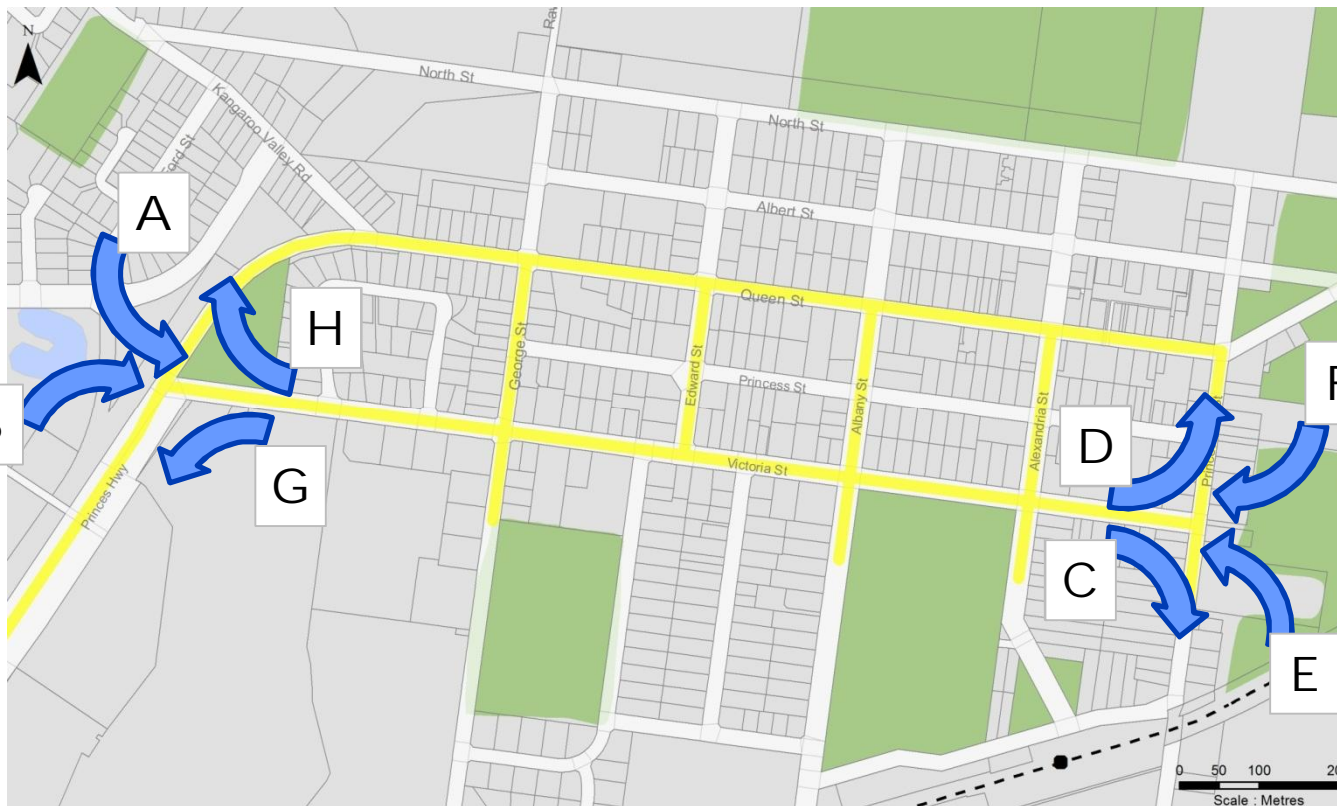

| Time | Reg. | Mov. |
|-------|--------|------|
| 08:01 | RMSXX1 | B |
| 08:01 | RMSXX2 | B |
| 08:06 | RMSXX3 | A |
| 08:06 | RMSXX4 | B |
| 08:08 | RMSXX5 | B |
| 08:12 | RMSXX6 | B |
| 08:18 | RMSXX7 | B |
| 08:20 | RMSXX8 | B |
| 08:20 | RMSXX9 | B |
| ... | ... | ... |

Victoria Street O-D Survey Data Capture

During the surveyed periods the following information was collected:

- Intersection Turning Counts; the total number and type of vehicles turning at the Victoria Street intersections with the highway and Prince Alfred Street.

Example:

| Time | Cars | Heavy (Rigid) | Buses | Heavy (Semi-trailer) | Total |
|-------------------|------|---------------|-------|----------------------|-----------|
| Movement A | | | | | |
| 08:00 – 09:00 | 6 | 0 | 0 | 0 | 6 |
| 09:00 – 10:00 | 7 | 0 | 0 | 0 | 7 |
| Movement B | | | | | |
| 08:00 – 09:00 | 34 | 1 | 2 | 0 | 37 |
| 09:00 – 10:00 | 66 | 2 | 0 | 0 | 68 |
| Movement C | | | | | |
| ... | ... | ... | ... | ... | ... |

During the surveyed periods the following information was collected:

- Automatic Traffic Counts ‘tubes’ maintained by Shoalhaven Council on local roads in Berry to record traffic volumes, including both ends of Victoria Street.

Example:

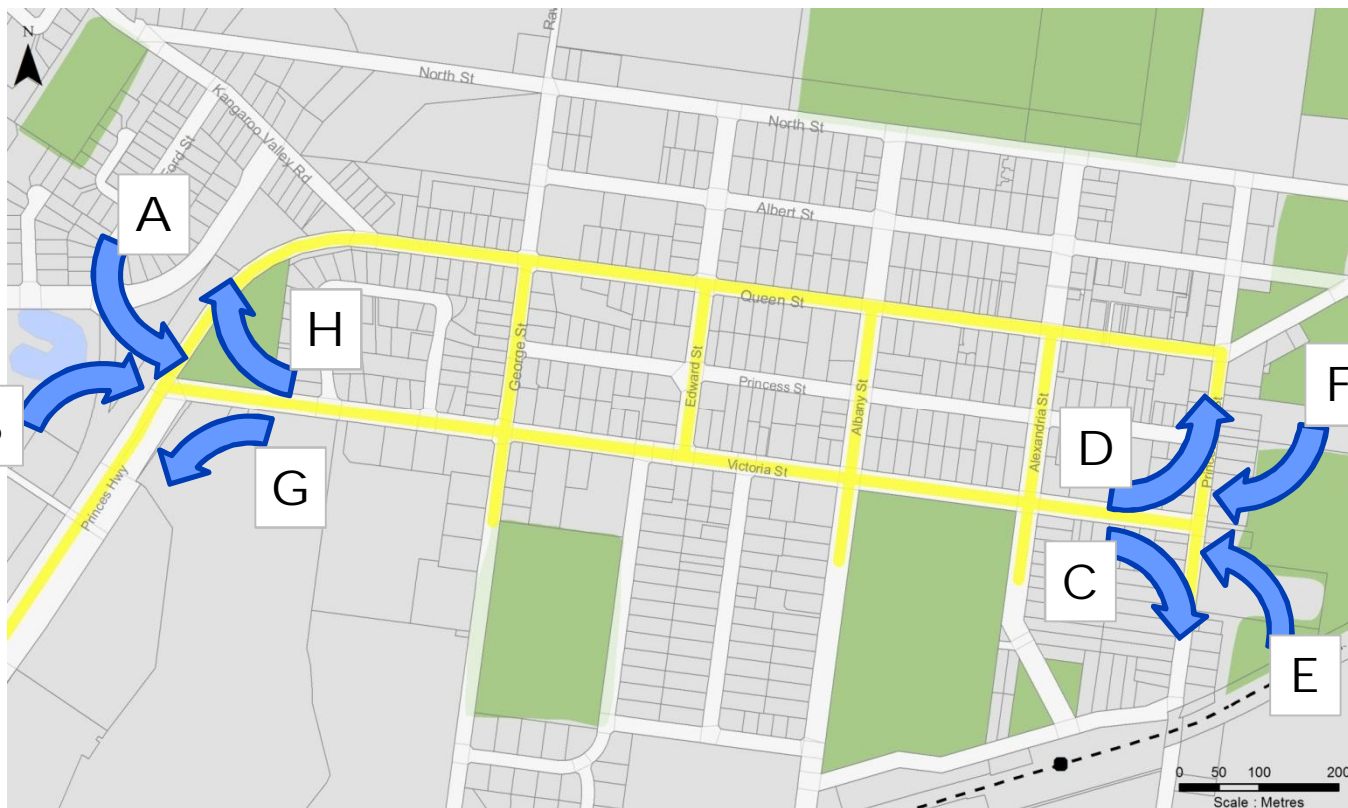

Note: Figure shows total vehicles per day in both directions

All of the data collected was reviewed and cross-checked to ensure its accuracy and validity. This included:

- Initial manual check of the data to identify any obvious errors or omissions.
- Cross-checking of survey data:
 - Do the volumes of number plates recorded match the Intersection Turning Counts?
 - Do both of these surveys match corresponding data from the Automatic Traffic Counts?
- Sense-check data against previous survey data:
 - Do the surveys indicate similar traffic volumes and turning movements when compared to previous surveys? For example:
 - Are traffic volumes recorded on Victoria Street higher at the western end than the eastern end?
 - Do the surveys show similar trends between traffic volumes and turning movements on different days? For example:
 - Are peak traffic volumes recorded on Victoria Street higher on Sunday (Berry Country Fair) than during weekdays?

Victoria Street O-D Survey Data Processing and Analysis

Following the checking and validation of data, the number plate matching process was performed to determine relative local and 'through' traffic volumes.

Local Traffic:

e.g. A Only, B Only, etc.

Registration recorded for only a single movement to/from Victoria Street.

Through Traffic:

e.g. A / B to C / D, etc.

Registration recorded and matched at both ends of Victoria Street within a specified timeframe; most 'through' movements travelled along Victoria Street in 2 minutes or less.

Victoria Street O-D Survey Data Processing and Analysis – Thursday AM Eastbound Example

Transport
Roads & Maritime
Services

Example:

| Time | Registration | Movement (Western end) | | Time | Registration | Movement (Eastern end) |
|-------|--------------|---------------------------|--|-------|--------------|---------------------------|
| ... | | | | ... | | |
| 09:04 | RMSXX1 | B | | 09:04 | - | - |
| 09:04 | RMSXX2 | B | | 09:04 | - | - |
| 09:04 | RMSXX3 | B | | 09:04 | - | - |
| 09:05 | RMSXX4 | B | | 09:05 | - | - |
| 09:05 | RMSXX5 | B | | 09:05 | - | - |
| 09:05 | RMSXX6 | B | | 09:05 | - | - |
| 09:05 | RMSXX7 | A | | 09:05 | - | - |
| 09:06 | RMSXX8 | B | | 09:06 | RMSXX1 | D |
| 09:06 | RMSXX9 | B | | 09:06 | - | - |
| 09:07 | RMSX10 | B | | 09:07 | - | - |
| 09:08 | RMSX11 | B | | 09:08 | RMSX16 | C |
| 09:09 | RMSX12 | B | | 09:09 | RMSX17 | D |
| 09:09 | RMSX13 | B | | 09:09 | - | - |
| 09:10 | - | - | | 09:10 | RMSX18 | D |
| 09:11 | RMSX14 | B | | 09:11 | - | - |
| 09:12 | RMSX15 | A | | 09:12 | RM5X14 | D |
| ... | | | | ... | | |
| 09:14 | - | - | | 09:14 | RMSXX6 | D |

Step 1: Align data
(times, registrations
and movements) for
matching

Victoria Street O-D Survey Data Processing and Analysis – Thursday AM Eastbound Example

Transport
Roads & Maritime
Services

Example:

| Time | Registration | Movement (Western end) | | Time | Registration | Movement (Eastern end) |
|-------|--------------|---------------------------|--|-------|--------------|---------------------------|
| ... | | | | ... | | |
| 09:04 | RMSXX1 | B | | 09:04 | - | - |
| 09:04 | RMSXX2 | B | | 09:04 | - | - |
| 09:04 | RMSXX3 | B | | 09:04 | - | - |
| 09:05 | RMSXX4 | B | | 09:05 | - | - |
| 09:05 | RMSXX5 | B | | 09:05 | - | - |
| 09:05 | RMSXX6 | B | | 09:05 | - | - |
| 09:05 | RMSXX7 | A | | 09:05 | - | - |
| 09:06 | RMSXX8 | B | | 09:06 | RMSXX1 | D |
| 09:06 | RMSXX9 | B | | 09:06 | - | - |
| 09:07 | RMSX10 | B | | 09:07 | - | - |
| 09:08 | RMSX11 | B | | 09:08 | RMSX16 | C |
| 09:09 | RMSX12 | B | | 09:09 | RMSX17 | D |
| 09:09 | RMSX13 | B | | 09:09 | - | - |
| 09:10 | - | - | | 09:10 | RMSX18 | D |
| 09:11 | RMSX14 | B | | 09:11 | - | - |
| 09:12 | RMSX15 | A | | 09:12 | RM5X14 | D |
| ... | | | | ... | | |
| 09:14 | - | - | | 09:14 | RMSXX6 | D |

Step 2: Automatic matching using computer software (exact matches only)

Match (Automatic)

No match

Services

Example:

| Time | Registration | Movement (Western end) | | Time | Registration | Movement (Eastern end) |
|-------|--------------|---------------------------|--|-------|--------------|---------------------------|
| ... | | | | ... | | |
| 09:04 | RMSXX1 | B | | 09:04 | - | - |
| 09:04 | RMSXX2 | B | | 09:04 | - | - |
| 09:04 | RMSXX3 | B | | 09:04 | - | - |
| 09:05 | RMSXX4 | B | | 09:05 | - | - |
| 09:05 | RMSXX5 | B | | 09:05 | - | - |
| 09:05 | RMSXX6 | B | | 09:05 | - | - |
| 09:05 | RMSXX7 | A | | 09:05 | - | - |
| 09:06 | RMSXX8 | B | | 09:06 | RMSXX1 | D |
| 09:06 | RMSXX9 | B | | 09:06 | - | - |
| 09:07 | RMSX10 | B | | 09:07 | - | - |
| 09:08 | RMSX11 | B | | 09:08 | RMSX16 | C |
| 09:09 | RMSX12 | B | | 09:09 | RMSX17 | D |
| 09:09 | RMSX13 | B | | 09:09 | - | - |
| 09:10 | - | - | | 09:10 | RMSX18 | D |
| 09:11 | RMSX14 | B | | 09:11 | - | - |
| 09:12 | RMSX15 | A | | 09:12 | RM5X14 | D |
| ... | | | | ... | | |
| 09:14 | - | - | | 09:14 | RMSXX6 | D |

Step 3: Check automatic matching and additional manual matching (identifies and corrects minor errors during data collection)

| |
|-------------------|
| Match (Automatic) |
| Match (Manual) |
| No match |

S / 5 recorded during survey. Corrected during manual check.
