

July 2017

Project update – Galston Road, Hornsby Heights to Galston

The NSW Government is funding improvements on Galston Road to improve safety and maintain efficiency on the state road network.

Roads and Maritime Services is continuing work on both sides of Galston Gorge. This will build on previous work to improve the road for motorists and the community.

A map of the work is available at rms.nsw.gov.au.

Overlength vehicle improvement

We are improving and supplementing the existing infrastructure at both ends of Galston Gorge to install a camera based detection system to minimise the number of overlength vehicles entering the Gorge. Sensors will register overlength vehicles and cameras will take a photo of the vehicle. For westbound motorists, the detection system will be just after Montview Parade, Hornsby Heights. For eastbound motorists the detection system will be just after Calderwood Road, Galston.

The work still to be done includes:

- excavating and installing cabling east of Galston Gorge
- installing new cameras west of Galston Gorge and additional cameras east of the Gorge
- testing the cameras.

We will be back on site to complete the work for **20 shifts** on both sides of the Gorge between **Monday 10 July** and **Friday 11 August**, weather permitting. Our work hours will still be from **7am** to **5pm** from **Monday** to **Friday**.

Turnaround options for overlength vehicles on Galston Road, Hornsby Heights

Roads and Maritime is continuing to develop a design that would improve turning options on the eastern side of the Gorge, between Ryan Trail and Evans Road. This work would reduce the number of overlength vehicles getting stuck in Galston Gorge and make it clear where overlength vehicles can turn around to use an alternate route.

Slope and drain investigation work, Galston Road, Galston

We are also carrying out investigation work to help develop a design for slope and drain improvements on Galston Road between Calderwood Road and Berowra Creek. We will be surveying and drilling to establish ground conditions and locate underground utilities.

We will be on site for **eight shifts** between **Monday 10 July** and **Friday 11 August**, weather permitting. Our work hours will be between **10am** and **3pm** from **Monday** to **Friday**.

Safety improvement, Hornsby Heights

We have been delivering safety improvements at the bend of Galston Road, starting 150 metres west of Montview Parade, and will finish this work on Friday 7 July. The completed work includes:

- widening the shoulder on the outside northbound curve
- installing a kerb
- upgrading drainage and removing vegetation to increase visibility and improve safety for all road users.

How will the work affect you?

Our work may be noisy at times but we will do everything we can to minimise its impact by staging the work in different locations.

Traffic changes

There will be temporary traffic changes during our work hours to ensure the work zone is safe.

Galston Road will be open to traffic during the work but there will be lane closures in place that may affect travel times. Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions, please contact our delivery partner, DownerMouchel, on 1800 332 660 or nsw_projects@downermouchel.com.

For more information on our projects, visit rms.nsw.gov.au.

We will continue to keep you updated as these improvements to Galston Road progress.

Thank you for your patience during this important work.

Translating and Interpreting Service

If you need an interpreter, please call TIS National on **131 450** and ask them to call DownerMouchel on **1800 332 660**.

Arabic

إذا كنتم بحاجة إلى مترجم، الرجاء الاتصال بخدمة الترجمة الخطية والشفهية (TIS National) على الرقم 131 450 ، و الطلب منهم الاتصال بوكالتكم DownerMouchel على الرقم 1800 332 660

Cantonese

若你需要口譯員，請致電 131 450 聯絡翻譯和口譯服務署 (TIS National)，要求他們 致電 1800 332 660 聯絡 DownerMouchel。
