

Project update – Galston Road, Hornsby Heights to Galston

The NSW Government is funding improvements on Galston Road to improve safety and maintain efficiency on the state road network

Roads and Maritime is providing a U-turn bay for heavy vehicles on the eastern side of Galston Gorge, between Ryan Trail and Evans Road.

This work is expected to reduce the number of overlength vehicles getting stuck in Galston Gorge. The work will provide a safe turnaround facility on the eastern side.

These changes are designed to reduce the number of road blockages caused by overlength heavy vehicles. They are not designed to target residents using light vehicle combinations, such as floats and towed trailers.

Work to be completed

The following work will be done to provide a U-turn bay:

- Improving and widening road surface between Ryan Trail and Evans Road.
- Tree trimming and removal of one tree at the entrance of Ryan trail to improve visibility of turning option from Galston Road.
- Installation of guardrail along Galston Road at the entrance of the eastern turning option at Ryan trail and at the camera based detection system on the western side of the Gorge after Calderwood Road.
- Installation of signage at both ends of Galston Gorge to advise motorists of turning options.

Our work schedule

We will be back on site for **20 shifts** between **23 October** and **Friday 22 December**, weather permitting. Our work hours will be from **7am** to **5pm** from **Monday** to **Friday**.

How will the work affect you?

There will be some noise associated with this work but we will do everything we can to minimise its impact.

Traffic changes

There will be temporary traffic changes during our work hours to ensure the work zone is safe.

Galston Road will be open to traffic during the work but there will be lane closures in place that may affect travel times. Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Overlength vehicle enforcement

In June and July this year, Roads and Maritime installed a camera based detection system to further discourage overlength vehicles entering the Gorge. Sensors will detect heavy vehicles longer than 7.5 metres and cameras will record the plate and image of the offending heavy vehicle.

For westbound motorists, the detection system has been installed just after Montview Parade, Hornsby Heights. For eastbound motorists the detection system was installed at the exit of the roundabout at Calderwood Road, Galston.

Heavy vehicles 7.5 metres in length are subject to enforcement action under the Road Transport (Driver Licensing) Regulation 2008 Rule 104 and 106 (2).

Light vehicle combinations, such as floats and towed trailers are reminded that vehicle combinations above 11 metres are unlikely to be able to navigate the tight bends in the Gorge based on recent surveys.

Contact

If you have any questions, please contact our delivery partner, DM Roads, on 1800 332 660 or enquiries_nsw@dmroads.com.au.

For more information regarding our work or overlength enforcement, visit www.rms.nsw.gov.au/projects/sydney-north and select Galston Road.

Thank you for your patience during this important work.

Translating and Interpreting Service

If you need an interpreter, please call TIS National on **131 450** and ask them to call DM Roads on **1800 332 660**.

Arabic

إذا كنتم بحاجة إلى مترجم، الرجاء الاتصال بخدمة الترجمة الخطية والشفوية (TIS National) على الرقم **131 450** ، و الطلب منهم الاتصال بوكالتكم DM Roads على الرقم **1800 332 660**
