PO Box 484
MOULAMEIN NSW 27

Dear Dean

RE: I16/3696 COUNCIL'S RESPONSE TO NOTIFICATION UNDER CLAUSE 14 OF THE STATE ENVIRONMENTAL PLANNING POLICY (INFRASTRUCTURE) 2007 (ISEPP) REGARDING PROPOSED DEMOLITION OF GEE GEE BRIDGE

I refer to your letter dated 18 October 2016 notifying Council under Clause 14 of the ISEPP and the statement of heritage regarding the proposed demolition of Gee Gee timber truss bridge.

After reviewing the above documents Council has no objection to the proposals relating to the replacement of the existing timber truss bridge, demolition, removal, recovery and salvage of timber from existing structure and the proposed view point.

Should you have any further enquiries in relation to this matter please contact Onesimo Mukodi, Deputy Director of Engineering on (03) 5887 5007.

Yours sincerely

Leigh Robins
Director Engineering Services

Mr Reuben Robinson
Senior Ecologist/Environmental Scientist
GHD Pty Ltd
Suite 3 Level 1, 161-169 Baylis Street
WAGGA WAGGA NSW 2650

Dear Reuben

Proposed Construction of new Gee Gee Bridge

Thank you for your letter of 8 February 2016 inviting comments in relation to the Review of Environmental Factors (REF) for this project.

The MDBA's interest in this project is in relation to the potential for effects of flows on MDBA Joint Venture assets. Approximately 350m upstream of the existing Gee Gee Bridge is Hydrometric Station No. 409062. This hydrometric station is an asset of the MDBA Joint Venture and is part of the network which other agencies rely on. This Hydrometric Station is managed on behalf of the MDBA by NSW Department of Primary Industries Water (formally NSW Office of Water). They will need to be consulted regarding the potential impacts of the proposed works on this hydrometric station. The contact person is:

Danny Hannon
Hydrometric Coordinator – South West, Water Resource Assessment and
Management, Water Monitoring Unit
DPI Water
TUMUT NSW
Phone: (02) 6941 2249
Email: daniel.hannon@dpi.nsw.gov.au

The Wakool River is classified as a NSW waterway, therefore if not already done so, we suggest that Water NSW and NSW DPI be consulted in relation to flow matters.

Should you require any further details or clarification on our comments please contact MDBA Senior Assets Engineer Paul Sureda on (02) 6279 0570.

Yours Sincerely

Andrew Reynolds
General Manager Assets
River Management

Reuben,

Not certain if you have heard anything directly from Daniel but at this stage we have no further comment in regard to this matter than our previous correspondence and the comments we provided at the site visit last year.

Let me know if you need me to follow anything up at my end.

Thanks,

Peter

Subject: TRIM: Gee Gee Bridge ISEPP consultation

Hello Peter,

As you are the nominated OEH point of contact for the Gee Gee Bridge project, please see attached a letter of consultation to the National Parks and Wildlife Service under the ISEPP for work adjacent to Murray Valley National Park.

I'm happy to discuss if you or the NPWS have any queries.

Regards,

Reuben Robinson

Senior Ecologist/Environmental Scientist
