

Compound establishment at 89 Liverpool Road, Ashfield, from 30 November 2020

Site compound establishment

A site compound at 89 Liverpool Street, Ashfield will be established for the Georges River Road and Milton Street project, and the King Georges Road and Canterbury Road Intersection upgrade project. The Australian and NSW Governments are upgrading these intersections to reduce congestion and improve safety.

The site compound will be used for storing containers, stockpiling materials, parking for construction vehicles, and include site offices and amenities for project staff and workers. Work to establish the compound is scheduled to start from November 2020.

A map showing the location of the compound is below.

Construction hours

Our work hours at the compound will be from **6am to 6pm** on week days and **Saturday** from **7am to 5pm**. Our night work hours will be from **6pm to 5am** on week days and Sundays. The compound is expected to be used until mid-2022.

Stimulus funding

This project compound is part of a \$240 million investment by Australian and State Governments to fast-track 11 congestion-busting projects as part of the plan to stimulate the economy as it recovers from the COVID-19 pandemic.

To ensure we protect public health and safety during the Coronavirus outbreak, we need to change the way we consult with the community. Please be assured we will continue to respond to any questions or concerns you may have about our work.

Contact

If you have questions or concerns regarding this site compound or the projects, please contact our delivery partner, Daracon contractors, on 1800 979 793 or daraconcommunity@outlook.com.au
