## Local access

Gerringong upgrade Princes Highway

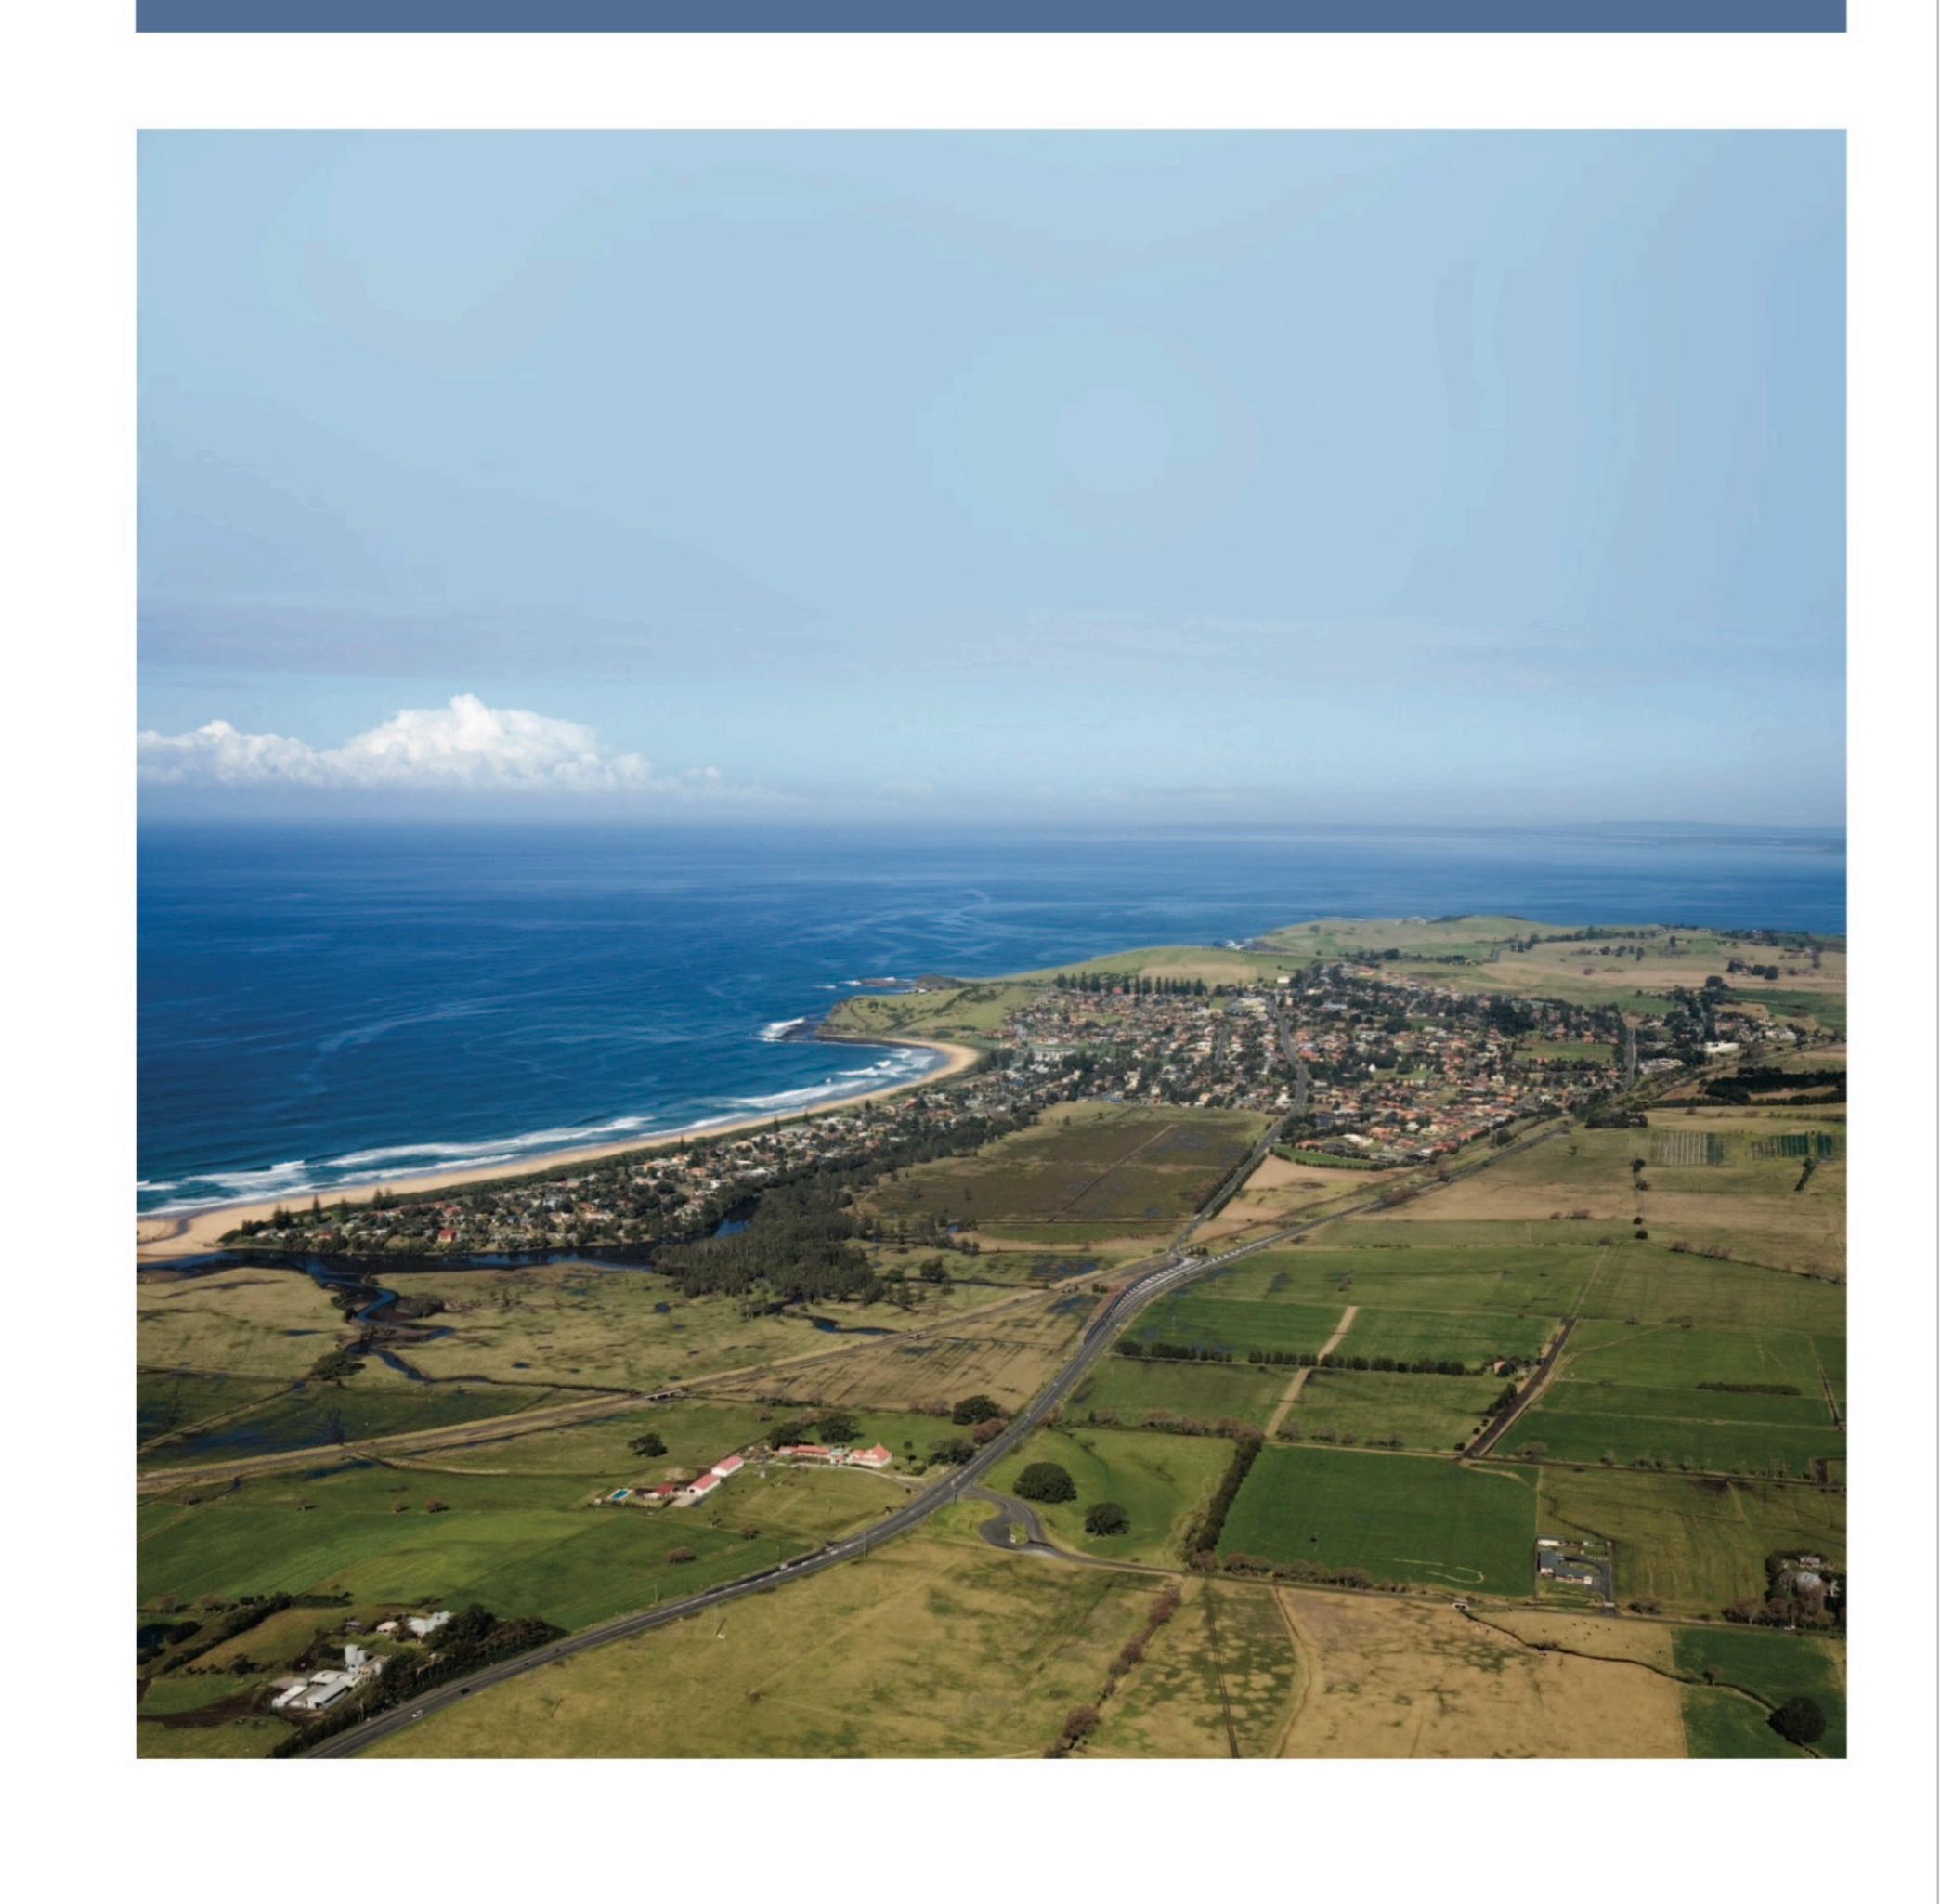

JUNE 2010

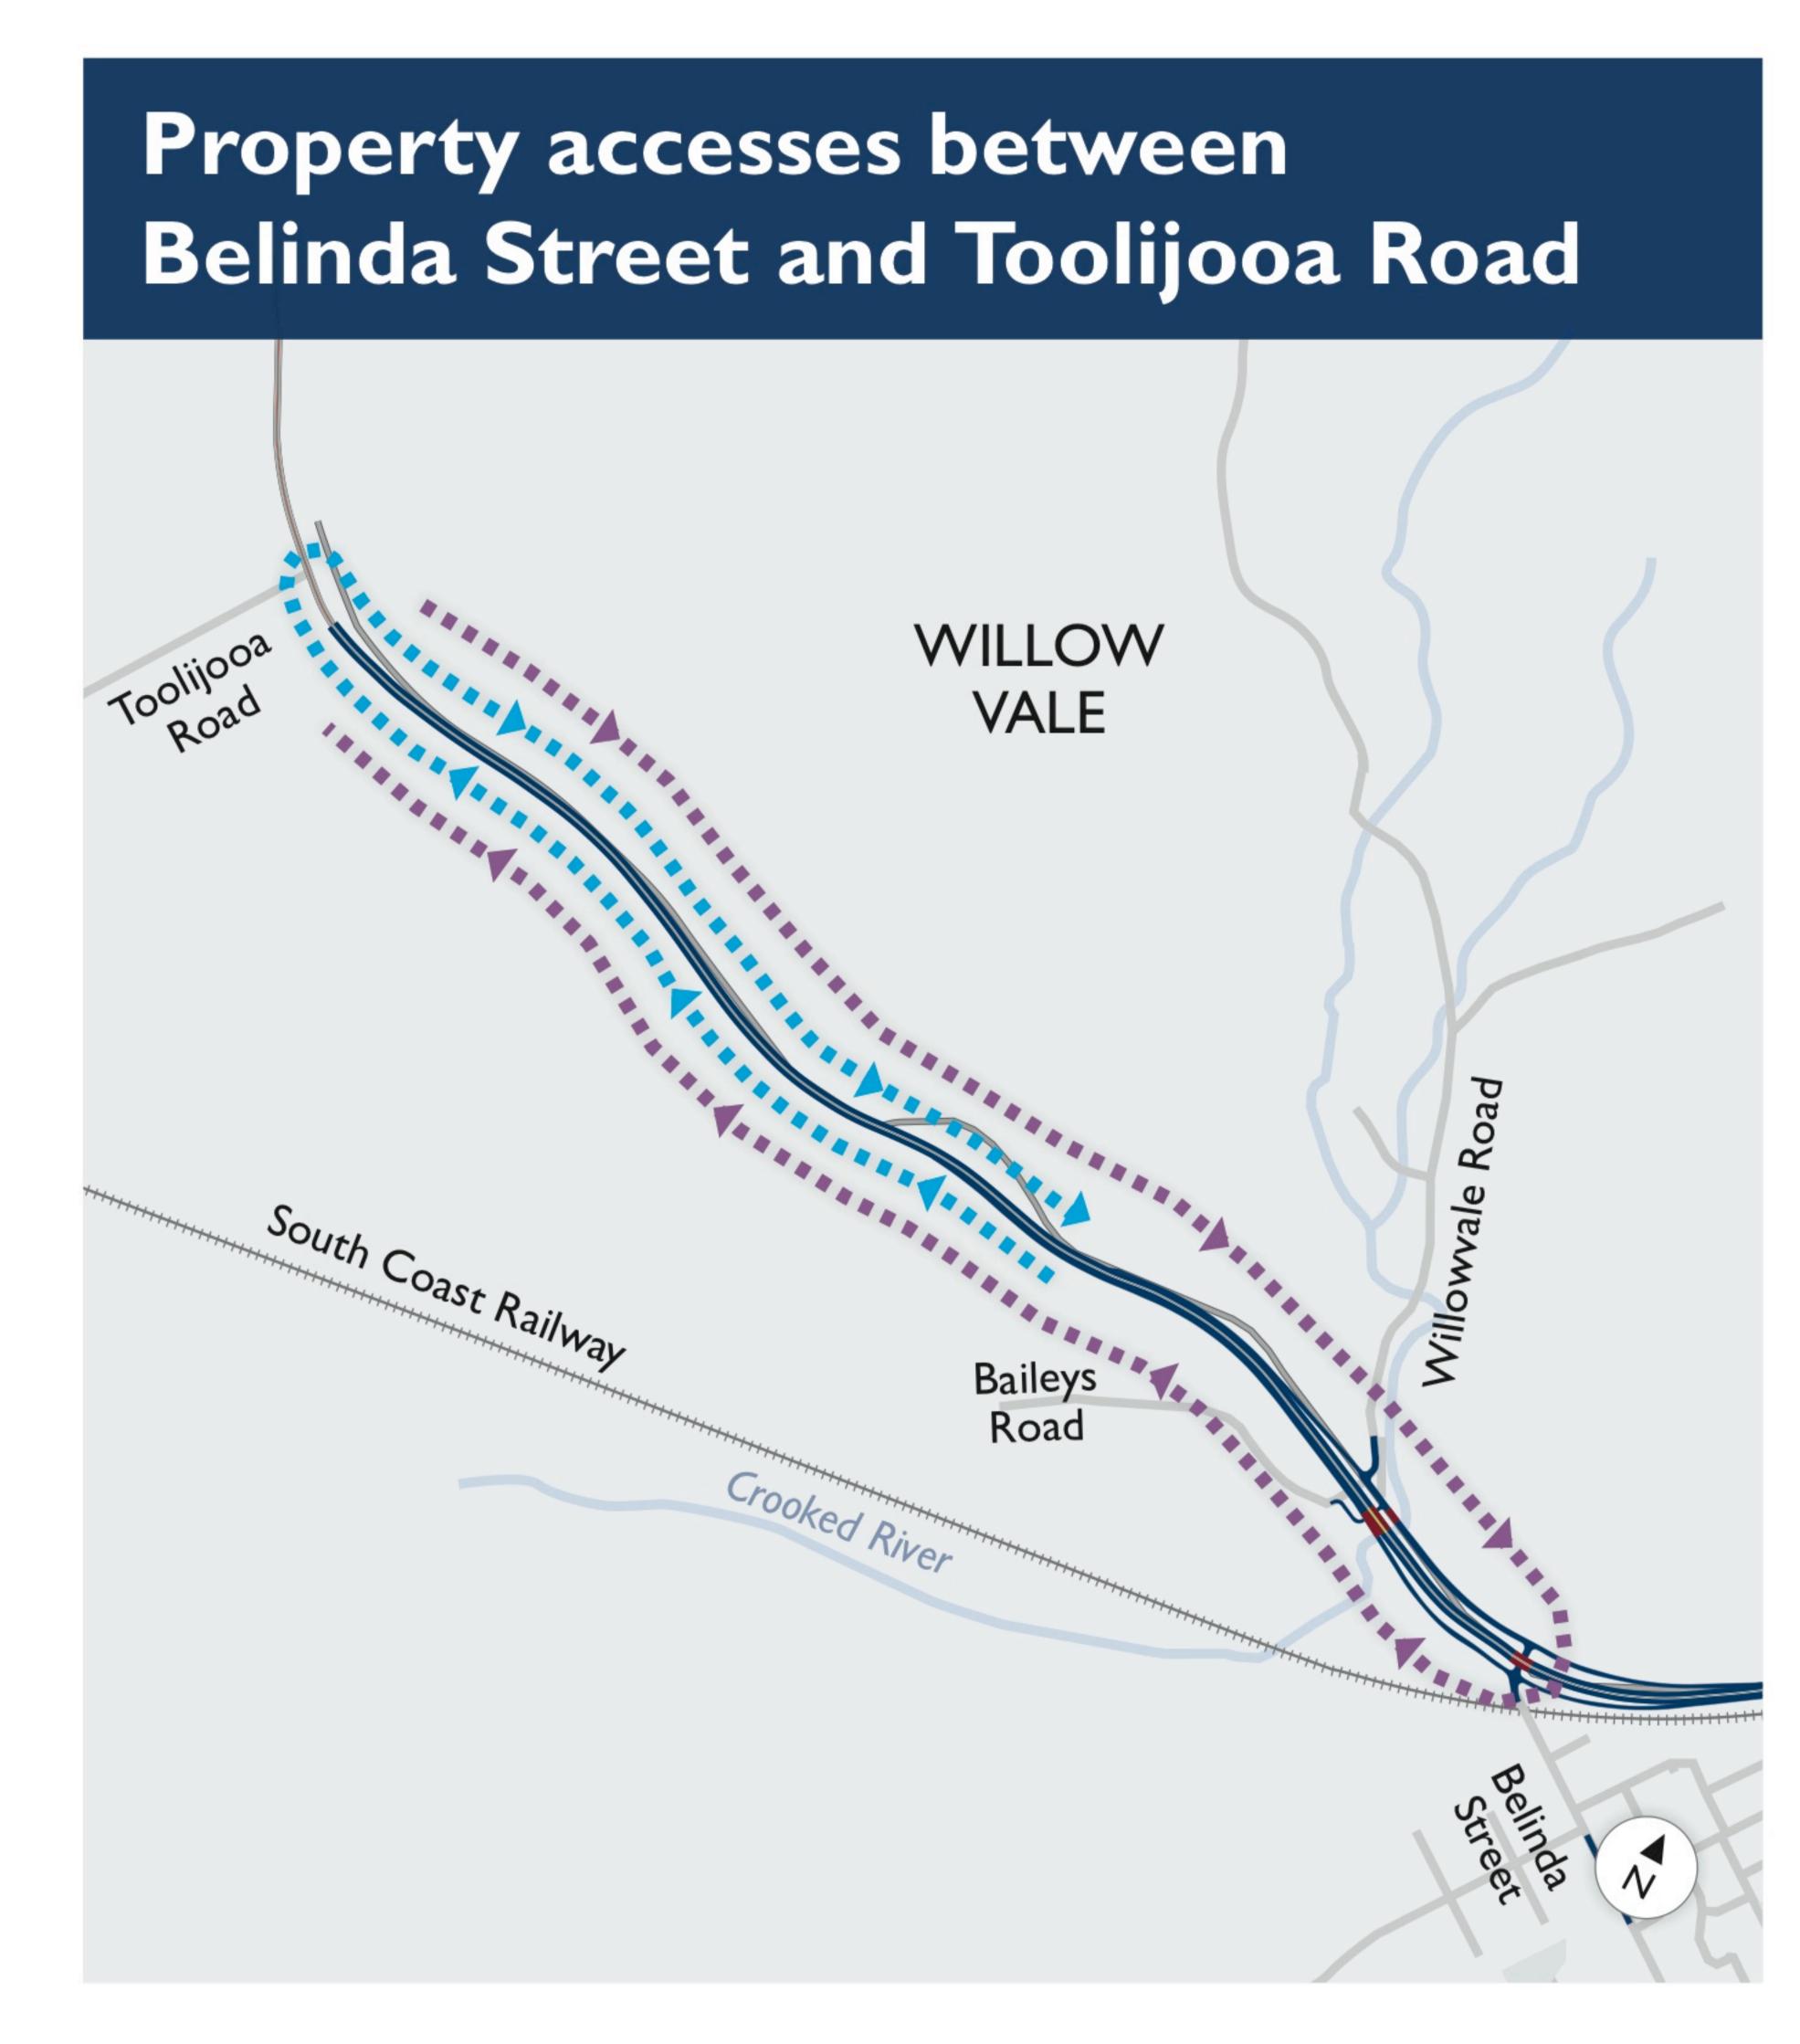

## Local access constraints

Sims Road and properties with direct access to the upgraded highway would be provided with left turn in and left turn out only options due to the introduction of median safety barriers to separate opposing directions of traffic.

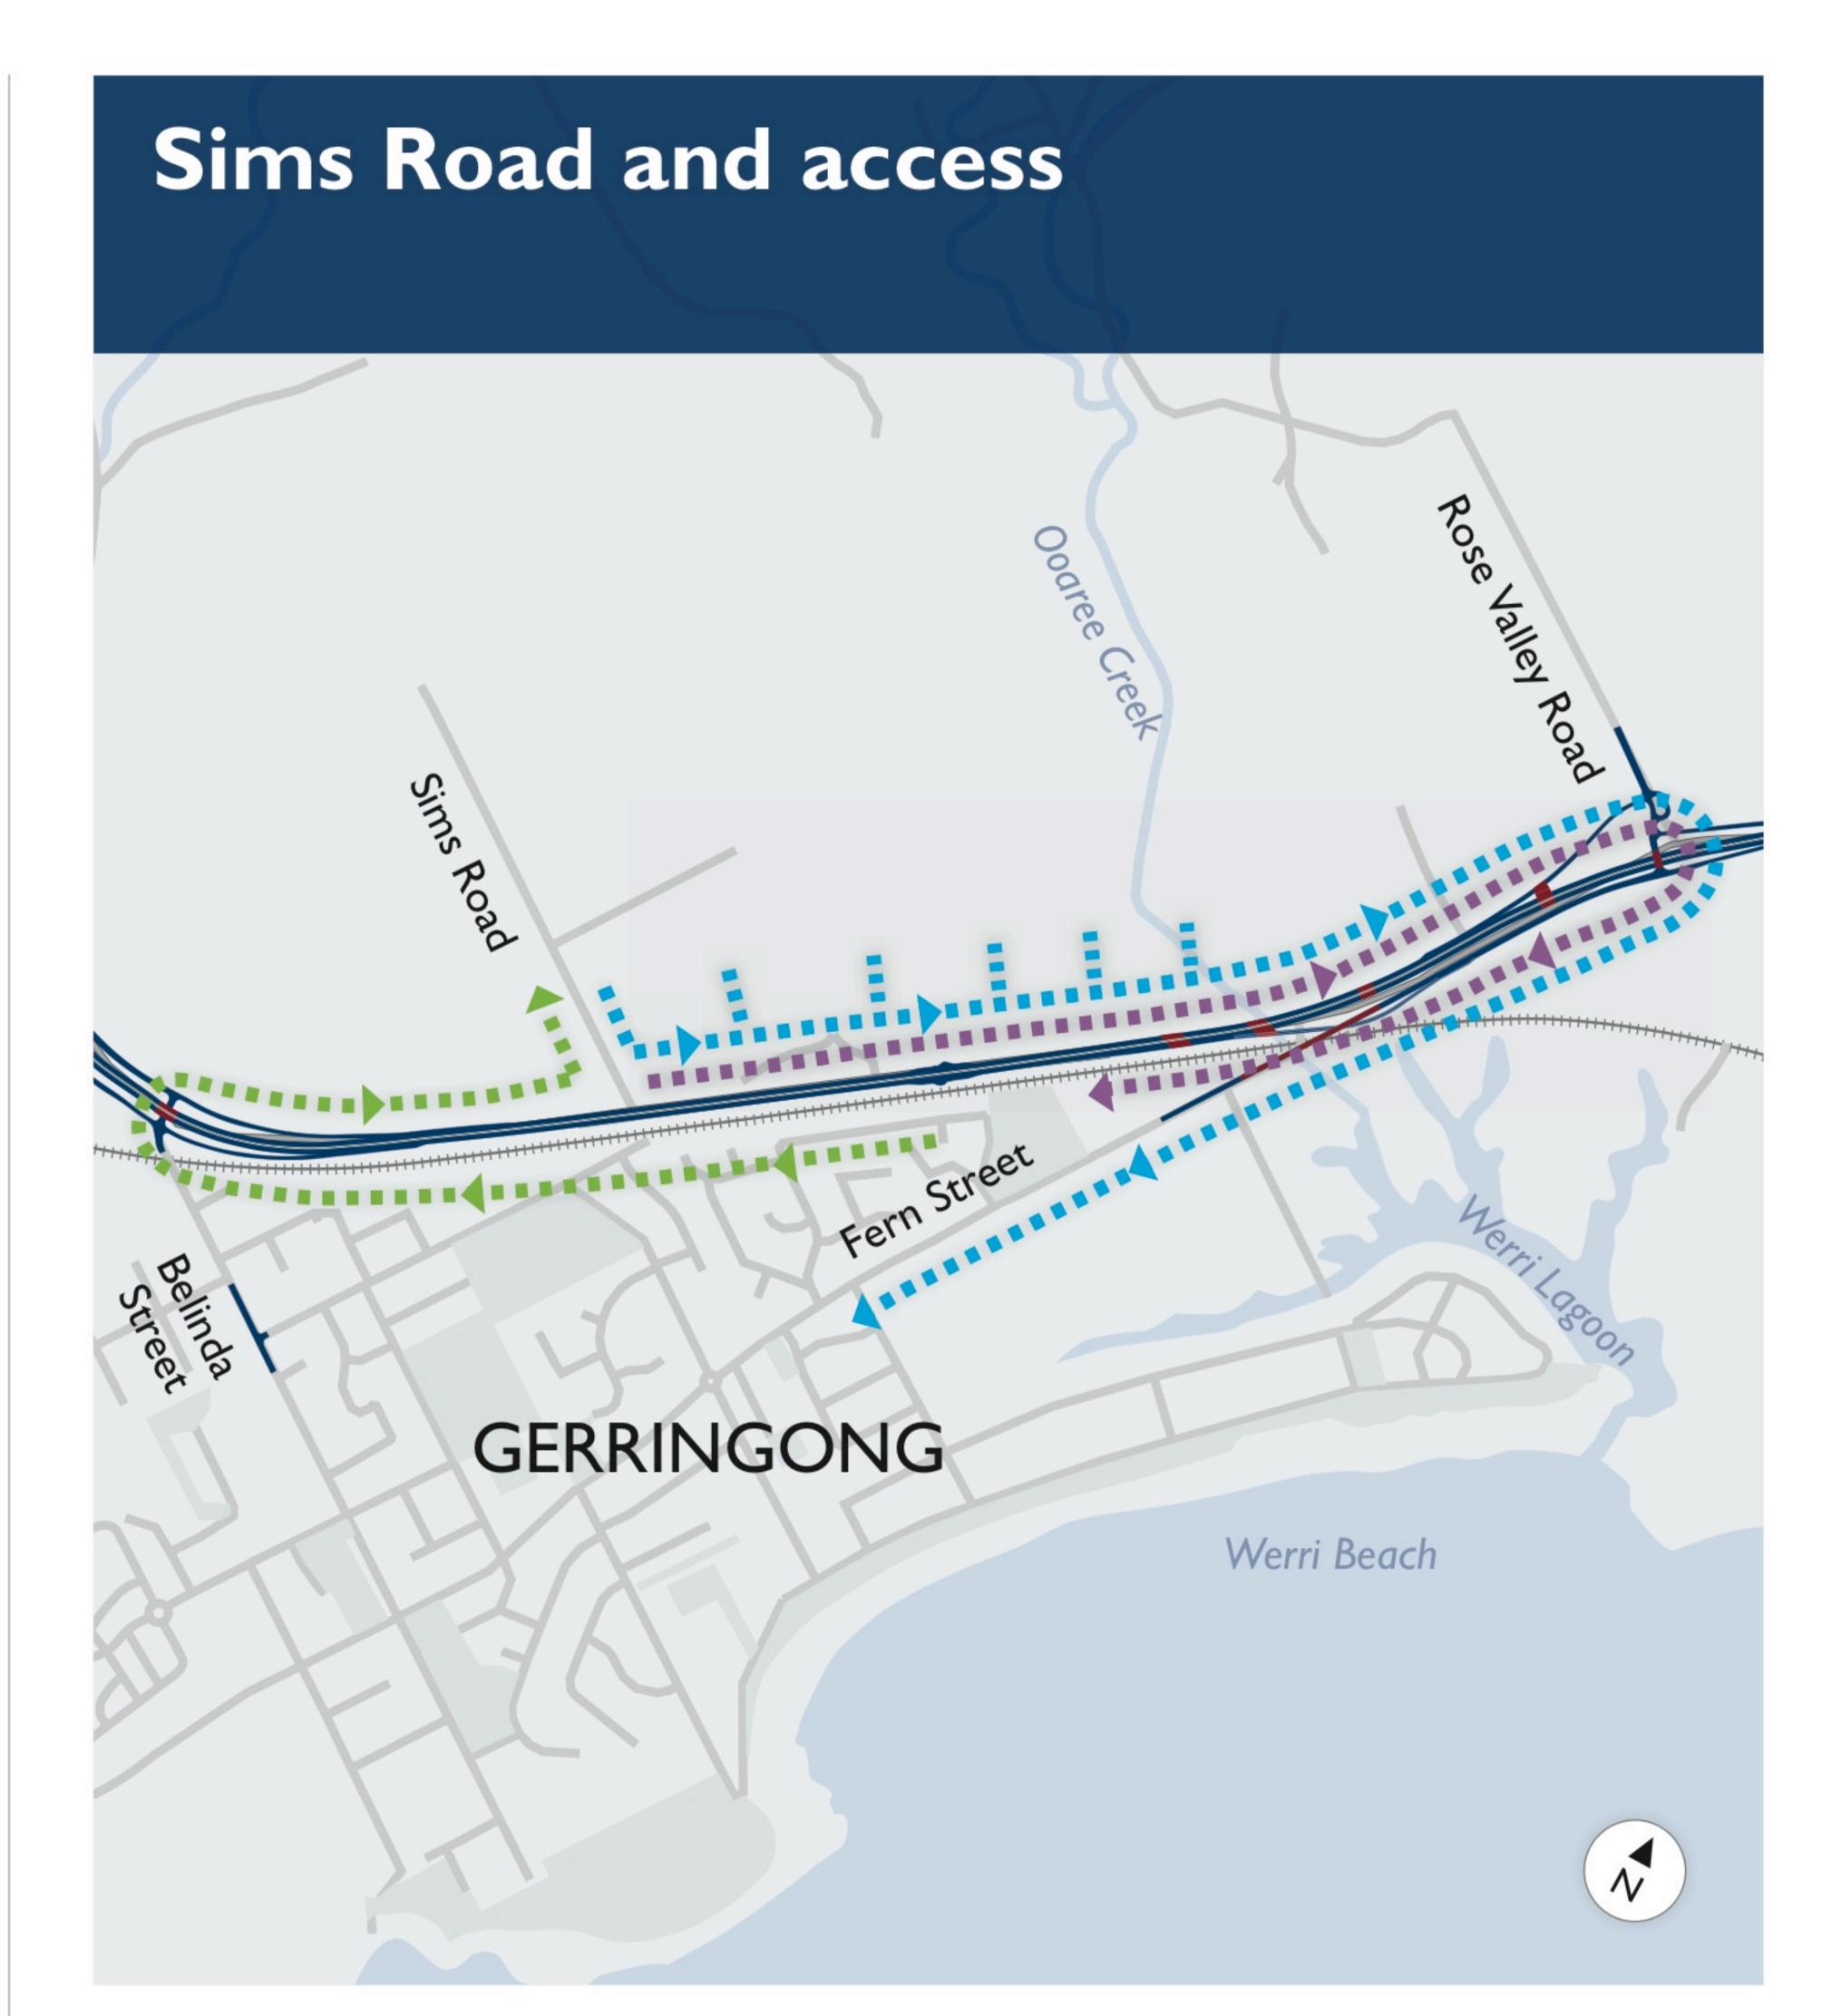

For these accesses traffic would be required to travel to the nearest U-turn facility to make a safe right hand turn.

Examples are as shown here.

	From	Properties south of Baileys Road accessed via southbound carriageway
	То	Princes Highway northbound.
	Traffic circulation	Requires southbound travel on the Princes Highway and U-turn at Toolijooa Road interchange.
	Maximum additional travel (typical conditions)	4.2km (3.1 minutes).
	From	Princes Highway northbound.
	To	Properties north of Toolijooa Road accessed via southbound carriageway
	Local access constraint	Requires northbound travel on the Princes Highway and U-turn at Belinda Street interchange.
	Maximum additional travel	7.1km (4.7 minutes).

From	Sims Road junction with the Princes Highway.
То	Gerringong town centre.
Traffic circulation	Requires northbound travel on the Princes Highway and U-turn at Rose Valley Road interchange.
Additional travel	2.9km (3.0 minutes).
From	Sims Road junction with the Princes Highway.
То	Princes Highway southbound.
Traffic circulation	Requires northbound travel on the Princes Highway and U-turn at Rose Valley Road interchange.
Additional travel	4.1km (3.2 minutes).
From	Princes Highway southbound.
To	Sims Road junction with the Princes Highway.
Traffic circulation	Requires continuing southbound travel on Princes Highway and U-turn at Belinda Street interchange.
Additional travel	2.1km (2.1 minutes).

	From	Properties north of Rose Valley Road, accessed via northbound carriageway
	То	Princes Highway southbound.
	Traffic circulation	Requires northbound travel on the Princes Highway and U-turn at Weir Street interchange.
	Maximum additional travel (typical conditions)	7.3km (6.2 minutes).
