JULY 2013

Dear resident,

Re: Princes Highway, Gerringong upgrade – traffic changes and out of hours work on the Princes Highway near Gerringong curves.

Roads and Maritime Services (RMS) is upgrading the Princes Highway between Mount Pleasant and Toolijooa Road. To progress construction of the upgrade, and to allow construction of the northbound lanes, the following traffic changes will occur:

Temporary northbound slow lane closure

The northbound slow lane on the Princes Highway 400 metres north of Toolijooa Road will be temporarily closed from **Tuesday 16 July 2013** until **mid 2014, weather permitting**.

Concrete barriers will be installed under traffic control along the edge of the northbound slow lane to separate construction work from highway traffic. While the concrete barriers are being moved a reduced speed limit of 40km/h, traffic management and advanced signage will be in place to help guide motorists.

Gerringong curves traffic changes stage one

Stage one of the traffic changes involves moving traffic onto a temporary road east of the existing highway between Baileys Road and the Gerringong curves from **Thursday 1 August 2013** until **early 2014, weather permitting**.

To minimise the impact on motorists work to implement these traffic changes will take place at night on **Wednesday 31 July 2013 between 6pm and 7am**, weather permitting. During the work temporary lane closures on the Princes Highway may be required. A reduced speed limit of 40km/h, traffic management and advanced signage will be in place to help guide motorists.

Gerringong curves traffic changes stage two

Stage two involves moving traffic onto a temporary road east of the existing highway from the Gerringong curves to around 200 meters south of the Gerringong curves from **late August 2013** until **early 2014, weather permitting**. To minimise the impact on motorists work to implement these traffic changes will also take place at night.

Please see overleaf a location map showing the traffic changes.

Variable message boards will be in place to assist residents and motorists with these changes. RMS apologises for any inconvenience the work may cause. For more information please contact the community relations team on **1800 506 976** (toll free) or email gerringongupgrade@fultonhogan.com.au.

Yours faithfully,

A handwritten signature in blue ink, appearing to read 'Adrian Rouse'.
