

## Night works on Great Western Highway at Raglan from Sunday 19 June

The NSW Government is funding essential upgrade works on the Great Western Highway between Kelso and Raglan to provide a stronger, longer lasting and safer road.

Transport for NSW will carry out night works over the coming weeks to support the upgrade works. We have included a map to show the location of the works.

We will be installing safety barriers between **7pm and 6am** from **Sunday 19 June to Monday 20 June** and expect to complete this work in two nights, weather permitting.

From **Sunday 26 June to Friday 1 July** we will be undertaking drainage works from 7pm to 6am, weather permitting.

### How will the work affect you?

The work will involve machinery which generates noise. We will make every effort to minimise this completing noisier activities earlier in the night and turning off machinery and vehicles when not in use.

Access will be provided to properties and emergency vehicles.

### Traffic changes

Lane closures and a 40km/h speed limit will be in place during work hours and may affect travel times. Motorists should allow up to five minutes extra travel time during this work.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.

### Contact

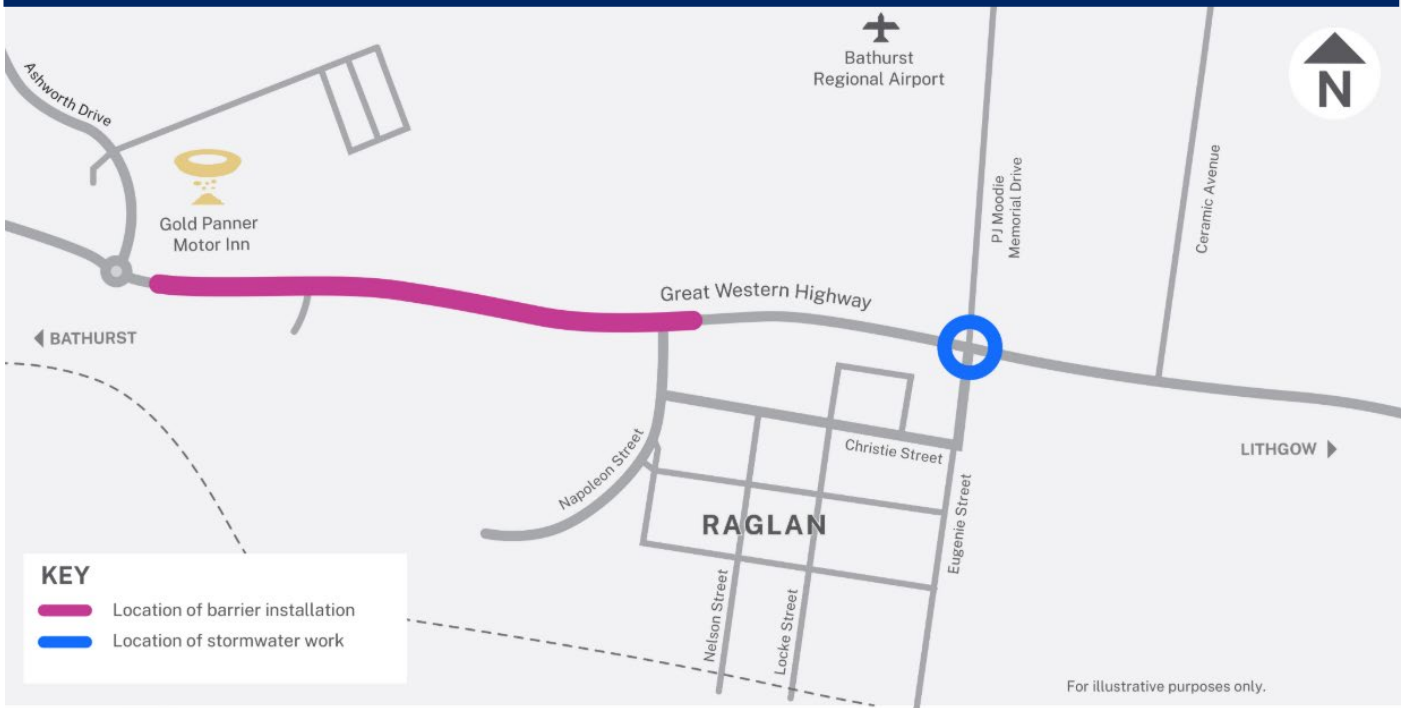

If you have any questions, please contact our Project Team on 1800 953 777 or email
