# Heathcote Road upgrade at Moorebank

August 2021

Heathcote Road at Moorebank looking south towards the M5 Motorway

Transport for NSW is investigating a future upgrade of Heathcote Road, Moorebank between Junction Road and the M5 Motorway. Improving this 300m section would improve safety and traffic flow. You can have your say on the proposed upgrade and meet our team at an online community information session on Tuesday 14 September.

## Project background

Heathcote Road is two lanes in each direction between Newbridge Road at Moorebank and Infantry Parade at Holsworthy, with the exception of a 300m section between Junction Road and the M5 Motorway, Moorebank that only has a single lane in each direction.

Transport for NSW has identified this section of Heathcote Road as a pinch point and has started planning to widen the road here to four lanes, to remove this bottleneck.

Further background information is available online at [nswroads.work/heathcoteroadmoorebank](https://nswroads.work/heathcoteroadmoorebank).

## Benefits

A future upgrade would provide benefits to the community including:

- Reduced congestion on Heathcote Road for buses, freight vehicles and motorists
- Safer access to and from Junction Road and the unnamed service road
- Safer and more convenient crossings for pedestrians and improved road safety
- a consistent two lanes in each direction between Holsworthy and Liverpool.

# Overview of Proposed Upgrade

## KEY

- Proposed upgrade to four lanes - two lanes in each direction
- Existing intersection arrangements remain unchanged
- Existing allowed movements remain unchanged
- Proposed one way movements on unnamed service road
- Proposed Exit Only from unnamed service road to Heathcote Road
- Proposed signalisation of Junction Road and Heathcote Road intersection
- Proposed new traffic light at intersection
- Service station

## Proposed improvements

The proposed upgrade includes widening this section to four lanes to compliment the remaining Heathcote Road corridor between Holsworthy and Liverpool. This improvement will contribute to reduced congestion and improved efficiency along the corridor.

Changes at the Junction Road intersection include the installation of traffic lights with designated turning lanes and safer access to the service road via Centenary Road (no entry from Heathcote Road - exit only).

Active transport improvements at this section include widening and realignment of the shared path between Heathcote Road and Anzac Creek, as well as a wide shoulder to allow for future on-road cyclists.

These solutions will help facilitate improved movement and a safe and efficient environment for all road users.

### The key features of this upgrade would include:

- widening to four lanes - two lanes in each direction - consistent with the remaining Heathcote Road corridor between Holsworthy and Liverpool
- intersection upgrade at Junction Road with traffic lights and designated turning lanes
- safety improvements at the unnamed service road adjacent to Heathcote Road.

Intersection of Heathcote Road, Junction Road and the service road at Moorebank looking south towards the M5 Motorway

# Options Identification Report

The Options Identification Report has been prepared as part of the design process and is available on the project webpage at [nswroads.work/heathcoteroad-moorebank](https://nswroads.work/heathcoteroad-moorebank). The purpose of this report is to describe the options appraisal process and assist with the selection of the preferred option.

Following consultation with the community and stakeholders, we will select a preferred option for the proposed upgrade and prepare a Preferred Option Report.

We will notify the community when this report is available.

Improving safety

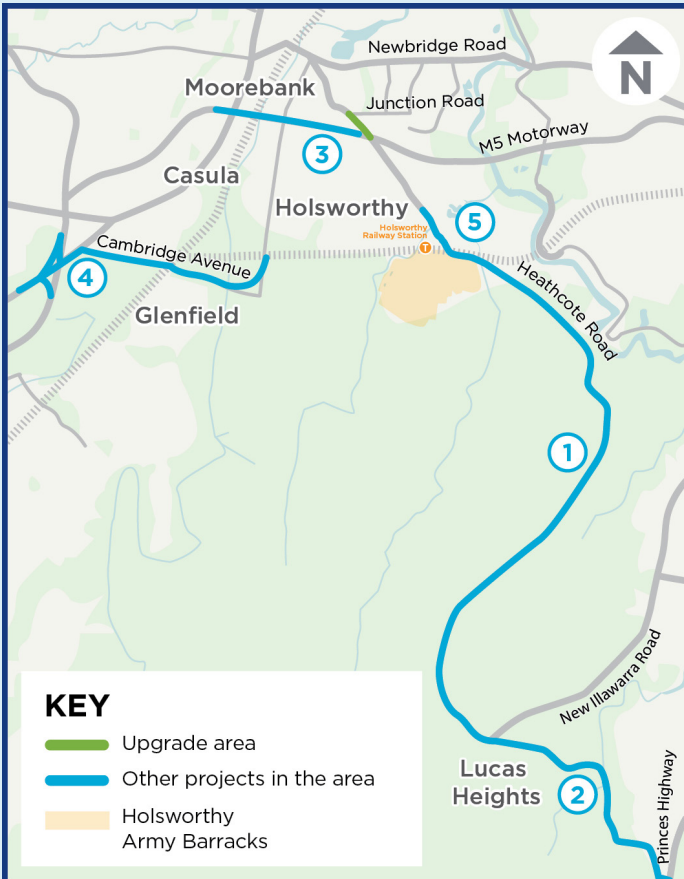

Catering for Western Sydney's growth

Better, safer and more reliable trips for people, business and freight

Easing congestion

## Other projects in the area

We are also planning other road upgrade projects, to support the future Transport network in the south-west, including:

### 1 Investigation for Heathcote Road duplication between The Avenue and Princes Highway

Visit [nswroads.work/Heathcoteroadcorridor](https://nswroads.work/Heathcoteroadcorridor).

### 2 Safety improvements for Heathcote Road bridge over Woronora River at Engadine

Visit [nswroads.work/Heathcote](https://nswroads.work/Heathcote).

### 3 M5 Motorway Westbound traffic and the Moorebank Interchange upgrade at Moorebank

Visit [nswroads.work/m5motorwaywestbound](https://nswroads.work/m5motorwaywestbound).

### 4 Cambridge Avenue upgrade at Glenfield

Visit [nswroads.work/cambridgeave](https://nswroads.work/cambridgeave).

### 5 Heathcote Road upgrade between Infantry Parade, Holsworthy and The Avenue, Voyager Point

Visit [nswroads.work/heathcoteroad](https://nswroads.work/heathcoteroad)

## Have your say

We are seeking your feedback on the upgrade by Sunday 10 October.

We will use your feedback to help finalise a preferred option for the upgrade.

We encourage you to send us your feedback by Sunday 10 October by emailing

**heathcoteroadmoorebank@transport.nsw.gov.au**

or calling us on **1800 271 117**.

## Attend an online information session on Tuesday 14 September

To ensure the health and safety of the community and our staff we are holding an online information session on Tuesday 14 September at 2pm. During the session our project team will be available to explain the proposed upgrade and answer any questions you have.

Please register your interest so that we can send you an invitation and instructions to join the session.

To register your interest, email

**heathcoteroadmoorebank@transport.nsw.gov.au**

or call us on **1800 271 117**.

## Project timeline

\*Subject to project funding

## What happens next?

We will consider all feedback we receive during consultation and prepare and publish a community consultation report. This report is prepared by the project team and will document and address the issues raised in the feedback. The report is part of Transport for NSW's transparent and inclusive planning processes and will assist with the next steps for the project.

The community can access information through the project website, community newsletters and the project phone number and email address in the contact details below. We will continue to keep the community informed as the project progresses.

## Contact us

If you have any questions about the project reach us on:

 **1800 271 117**

 **heathcoteroadmoorebank@transport.nsw.gov.au**

 **nswroads.work/heathcote-road-moorebank**

**131 450**

This document contains important information about road projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on 131 450 and ask them to call the project team on 1800 271 117. The interpreter will then assist you with translation.
