

Investigation work for Henry Lawson Drive Upgrade Stage 1B, Milperra from Monday 2 May

May 2022

Transport for NSW are carrying out investigations for the Henry Lawson Drive upgrade Stage 1B between Keys Parade and the M5 Motorway, Milperra.

Stage 1B is part of the overall upgrade of Henry Lawson Drive to ease congestion and improve safety and connectivity. The proposed upgrade would widen Henry Lawson Drive to four lanes with upgrades to intersections and improved active transport connections.

The upgrade of Henry Lawson Drive also includes the current work between Beale Street and just south of Rabaul Road in Georges Hall, and the upcoming Stage 1A upgrade between Tower Road and Keys Parade in Milperra.

This investigation work will inform the environmental assessment and early project design for Stage 1B. The investigation work will be carried out for up to **eight weeks** from **Monday 2 May** to **Friday 24 June 2022**, weather and worksite conditions permitting.

What will the investigations cover?

Investigations will occur along Henry Lawson Drive between Auld Avenue and the M5 Motorway and will include areas adjacent to Henry Lawson Drive and along local and adjoining streets. The work will include:

- environmental investigations such as biodiversity, heritage and contamination
- geotechnical investigations of ground conditions and location of utilities (above and below ground).

What will the investigations involve?

- specialists walking along the road and adjacent areas
- excavations and drilling holes on road pavement/ nature strip/ footpath using vacuum truck, core drilling machine, handheld drill and other equipment
- surveyors on roadside with scanning devices.

Our investigation schedule

We will work for up to **eight weeks** from **Monday 2 May** to **Friday 24 June 2022**, weather and worksite conditions permitting. We will not work during weekends. Our work hours are:

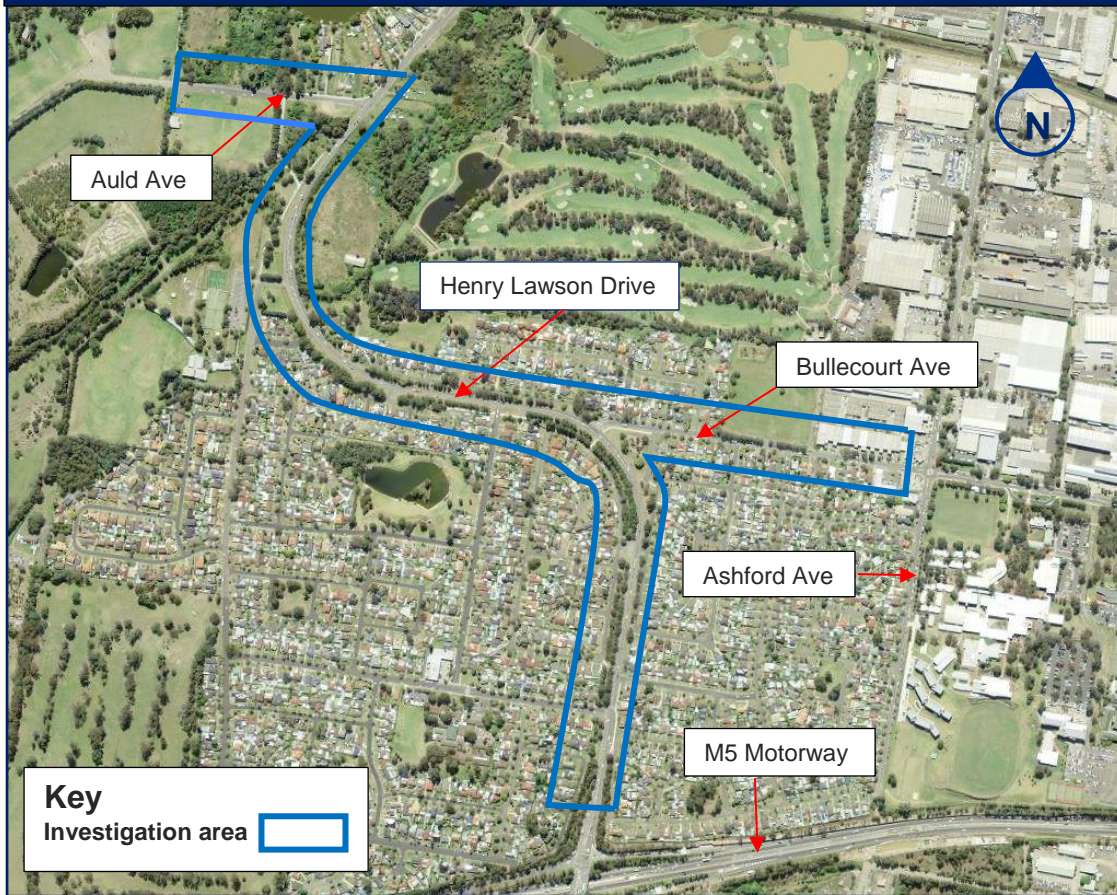

- **day time** - from **7am** to **6pm**, **Monday to Friday**
- **night time** - from **10pm** to **5am** next day, **Monday to Friday** nights.

How will the investigations affect you?

There will be noise and other disturbances during our investigation. Measures will be in place to minimise their impact to the residents, including completing the noisier tasks (such as drilling or use of vacuum truck) **before midnight**.

The investigations will be carried out progressively along the corridor so each resident will not be affected during the entirety of the investigation.

Investigation area for Henry Lawson Drive Upgrade Stage 1B

Traffic and pedestrian path changes

There will be temporary lane closures to ensure the safety of road users and workers. There may also be partial closures of footpath at our work area and alternative path and signs will be in place.

Please keep to speed limits and follow signs and traffic controller directions. For the latest traffic updates, call 132 701, visit livetraffic.com or download the Live Traffic NSW app.
