

Continuing night work on Hexham Bridge, Hexham from Tuesday 10 May

The NSW Government is investing in essential maintenance work to ensure safe and reliable operation of Hexham Bridge.

Transport for NSW will continue essential maintenance work on Hexham Bridge, which includes truss steel repairs, maintenance to the lift span, and general routine works to the bridge deck and expansion joints.

We will be working at night between **8pm** and **5am** from **Sunday** to **Thursday** and expect to complete the work by **mid-June**, weather permitting. We will let you know in advance if we need to do any work outside these times.

This follows a planned short break in work during the NSW School Holidays to minimise disruption to motorists.

How will the work affect you?

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by completing noisier activities earlier in the night and turning off machinery and vehicles when not in use.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

The southbound bridge will be closed during the work. All traffic will be diverted onto the northbound bridge, which will operate with one lane in each direction.

A 40km/h speed limit will be in place during work hours and may affect travel times. Motorists should allow up to 10 minutes extra travel time during this work.

The opening span will not be in operation while the work is carried out.

The pedestrian footpath will be closed while the work is carried out. Traffic control will be on site to safely escort pedestrians across the bridge while the footpath is closed.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions, please contact our Project Manager, Gavin Jenkins on 02 4908 7601 or gavin.jenkins@transport.nsw.gov.au.
