

Continued out of hours work on Martin Bridge, Taree from Sunday 13 February

The NSW Government is investing in essential maintenance to preserve the structural integrity of Martin Bridge and to reduce future maintenance costs.

Transport for NSW and construction partner, Eptec, are continuing maintenance work on Martin Bridge.

Due to weather delays and continuing COVID-19 impacts on the work force, we are expecting delays to completion of the repainting project.

We are currently considering alternative delivery options for the remaining work and will continue to keep the community closely informed on next steps and timing for finalising the project.

We thank you for your patience.

What are we doing?

We will be carrying out limited night work as part of the repainting work. Work is required outside normal project hours for the safety of workers and road users, and to minimise traffic delays.

The night work program will include two weeks of night work per month with two weeks of respite to minimise impact to you. This night work program will help to accelerate the delivery of the project.

Traffic on the bridge will be reduced to one lane during the work. Access to and from Taree will be maintained throughout the work with no detours required.

Work will be carried out from **Sunday 13 February**. We will be working from **Sunday to Thursday** between **7pm** and **5am** for **two weeks**, weather permitting.

How will the work affect you?

The work will involve the use of machinery which generates some noise. We will be using cordless power tools, manual tools, portable generators, lighting towers and work trucks during the work.

We will carry out the noisiest work before 11pm and make every effort to minimise noise when possible throughout each shift including installing noise blankets and switching machinery off when not in use. We will also be using work methods which reduce noise as much as possible.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

Lane closures and a reduced 40km/h speed limit will be in place during night work and may affect travel time.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions or feedback about this work, please contact our contractor:

- Business hours – Samuel Leon 0406 793 126
- During night work – Roger Tagomoa 0456 254 046

If you need help understanding this information, please contact the Translating and Interpreting Service on 131 450 and ask them to call us on 02 4908 7601.
